

## Canada's War Effort

A Review of Developments on the Home Front,  
July 12th to 19th.

What has happened in Canada during the past week which will further Canada's war effort? Well, in the matter of NATIONAL REGISTRATION Hon. J. G. Gardiner, Minister of National War Services, submitted to Parliament regulations governing the forthcoming national registration of all persons of 16 years of age and over. The regulations prescribe severe penalties for failure to register, or for failure to answer any question upon the registration card or for answering questions untruthfully. The penalties take the form of a fine, or imprisonment, or both. The list of questions which must be answered appear in another column of this issue. . . . Special instructions to registrars, issued by the chief registrar, state: "It is the declared policy of the Government to provide for mobilization of the resources of the nation, so as to enable Canada to make her maximum contribution towards the successful prosecution of the war, in men, food-stuffs, munitions and ships. As a prerequisite to that undertaking, and as providing the only basis upon which it can be proceeded with intelligently, the Government has ordered the registration of the man and woman power of Canada."

In the matter of MUNITIONS AND SUPPLY, Hon. C. D. Howe, minister of that department, has stated that, owing to the nature of their work, the financing required by the five companies recently organized and wholly-owned by the Government has been of a modest nature. By accumulating supplies of war material, some of these companies have not only safeguarded the future of certain essential industries, but at the same time have acquired supplies at more favorable prices than would have been possible had the Government's entry into the market been made public. Operations of the companies have already resulted in substantial savings of public funds. . . . Work is to begin immediately on another 20 Air Force and British Commonwealth Air Training Plan construction contracts. . . . Announcement was also made during the week of the immediate construction "somewhere in Ontario" of another major plant engaged in the manufacture of chemicals, such as ammonia and ammonia nitrate, for Canada's explosive manufacturing program. The new plant, costing approximately \$11,000,000, is being built on British account under the supervision of the Department of Munitions and Supply. . . . Mr. Howe also stated that under the original contract, production of Bren guns was planned for about September next, but the first guns were produced in April, and for many weeks guns have been produced at a rate substantially above that originally planned. Production of guns complete with bipods has been in excess of schedule. Shortly, the bipod parts will also be manufactured in Canada, as equipment is being installed in the plant.

In an announcement on July 5, the Minister of FINANCE stated that funds could not be sold nor the export of Canadian dollars permitted for purely pleasure travel in the United States and other countries outside the sterling area. To meet unusual cases, the Foreign Exchange Control Board has now outlined purposes for which permission of export of funds will be granted. They come under the general titles of: 1, emergency cases; 2, business travel; 3, travel for health purposes; 4, travel for purposes of education; 5, personal affairs (applications considered on their merits); 6, international conventions; 7, transit through the United States; 8, international commuters. Permits obtained for pleasure purposes under false representations will render the applicant punishable in accordance with the law. . . . Further safeguards against the UNWARRANTED RAISING OF PRICES of commodities as a result of the imposition of the special 10 per cent tax on imports, known as the War Exchange Tax, were approved on the recommendation of the War Time Prices and Trade Board, which is empowered to investigate and keep watch on prices, the Government may impose an additional tax of ten per cent upon all goods sold or dealt in by any person discovered to have unwarrantedly raised prices. Or it may remove or reduce the customs duties applicable thereto, or fix the prices thereof.

Hon. N. A. McLarty, Minister of Labor, introduced in the House of Commons a bill creating a scheme of NATIONAL UNEMPLOYMENT INSURANCE. The bill covers 2,100,000 workers or 4,660,000 workers and dependents. Employers and employed contribute roughly about equal total amounts scaled in seven wage groups. The Dominion Government contributes one-fifth of the total contributions paid by employees and employers plus cost of administration. No person earning more than \$2,000 comes under the bill. Benefits are paid after 30 weeks or 180 daily contributions within a two-year period, and are payable after nine days of unemployment. A special Parliamentary committee is examining the bill and holding public hearings.

WITH THE FORCES: Major-General A. G. L. McNaughton, General Officer Commanding the First Canadian Division, Canadian Active Service Force, has been promoted to the rank of Lieutenant-General and placed in command of a new British army corps, which will include the Canadian forces now in Britain. Major-General G. R. Pearkes, V.C., succeeds General McNaughton as Officer Commanding the First Canadian Division. He was promoted from the rank of Brigadier and was in charge of the 2nd Infantry Brigade of the division under General McNaughton. This post will be taken over by Lieut.-Col. A. E. Potts, commander of the Saskatoon Light Infantry in the 2nd Brigade. . . . Two more drafts of 25 officers of the Royal Canadian Volunteer Reserve have arrived in England for training in Royal Navy establishments. In due course they will assume duty either aboard Canadian destroyers, now overseas, or in ships of Royal Navy. Plans are now completed whereby 150 more men will be enrolled as ratings and sent to the United Kingdom for training. They will be eligible for officers' commissions. These appointments are made through the various R.C.N.R.V. divisions in Canada. . . . Progress of the British Commonwealth Air Training plan was reviewed in detail by representatives of the participating countries. The biggest obstacle to the prosecution of the plan was Britain's postponement of shipments of aircraft and engines to Canada. It is proposed to surmount this barrier through national production and purchases from the United States. The problem of staffing the Joint Training Plan and Canada's own home forces is being met without difficulty. Nor is there any shortage of pupils. Already there are 1,196 officers trained and in training for the administration, maintenance and instruction of the plan and close to 11,000 men, an increase of 3,000 in the last month. By this week 2,418 aircrew pupils will be in training, actually 2,000 more than a month ago.

VOLUME 37

Kelowna, British Columbia, Thursday, July 25th, 1940

NUMBER 52

## Valley Delegation Leaves Friday For Ottawa Conference

Representatives of Tree Fruit Areas in Canada Called to Ottawa for Conference on July 29 and 30 with Hon. J. G. Gardiner, Minister of Agriculture—E. J. Chambers, D. M. Rattray, Dave McNair, J. E. Montague and G. A. Barrat Comprise Delegation Which Will Go to Ottawa from Okanagan

Government Assistance to B.C. will be Settled

REPRESENTATIVES of British Columbia's tree fruit industry will leave the Okanagan Valley on Friday for Ottawa, to meet delegates from all other fruit growing provinces of the Dominion in a conference called by Hon. J. G. Gardiner, Dominion Minister of Agriculture, to discuss the marketing possibilities in connection with the 1940 crop of tree fruits throughout the Dominion. This is the second conference which the Okanagan's representatives have attended, as the entire situation was discussed late in May but no decision was reached at that time. No indication has been received here as to the possibility of any apples being exported to the United Kingdom this year but some announcement along this line is expected to emanate from Ottawa before the end of the month. The conference with Hon. James Gardiner is scheduled to take place at Ottawa on Monday and Tuesday, July 29 and 30.

Sales Manager Dave McNair will represent B.C. Tree Fruits Ltd. at this important conference. Capt. D. M. Rattray will make the trip east as B.C.F.G.A. President. E. J. Chambers will represent the Associated Growers of B.C. Ltd. and B.C. Federated Shippers Association will have J. E. Montague. The B.C. Fruit Board delegate is Chairman G. A. Barrat.

When the delegation met the Minister at Ottawa last May, Mr. Gardiner assured them that at a later conference their representations would be considered on a basis of obtaining equitable treatment as between provinces that depend on trans-Atlantic exports for a substantial proportion of normal production.

Definite Plan  
Department officials at Ottawa have been considering the recommendations laid before the Minister last May and it is considered here that a definite plan will probably be worked out by the agriculture department to lay before the B.C. fruit men and the delegates from the other apple-producing provinces.

No further steps have been taken by the Okanagan men, since they returned from Ottawa last May. They laid their cards on the table then, and are now ready to view the results of their indications, as sifted by the departmental officials. At home, however, Tree Fruits Ltd. has made a step towards possible stimulation of the domestic market, by adopting the policy of bulk shipments to country points on the prairies.

The Minister of Agriculture has already taken steps to institute an apple advertising campaign throughout Canada and the B.C. apple industry is combining its advertising plans with those of the Dominion. It is anticipated that a sum approximating \$100,000 will be spent in Canada by the Dominion Government and the B.C. fruit industry to push apple sales on the domestic market.

The inclusion of bulk apples in the deal this year is one move on the part of the B.C. fruit industry towards the suggestion by the Dominion Department of Agriculture that wherever possible the spread between the producer and the consumer should be reduced.

Miss Becky Gore returned to Kelowna after two weeks spent visiting friends in Calgary and Banff. While at Calgary she was the guest of Mr. and Mrs. Guy DeHart.

## Registration Dates all Over Canada are Set for Three Days in August, 19, 20 and 21

H. V. Craig Receives Word that All Persons Over 16 Years of Age, with Few Named Exceptions, Must Register on Monday, Tuesday and Wednesday in Third Week in August—Great Response from Volunteers to Assist in Southern Portion of Yale Riding—Oddfellows and Scout Halls to be Used in Kelowna

REGISTRATION of all men and women in Canada from 16 years of age upwards, with the exception of a few named categories, will be undertaken on Monday, Tuesday and Wednesday, August 19, 20 and 21, H. V. Craig, Registrar for Yale riding, informed The Courier on Wednesday, following receipt of an air mail letter from Ottawa. Registration in Kelowna will be conducted at the I.O.O.F. Hall and the Scout Hall, both places having been donated free of charge for the purpose. The Kelowna schools were available, it is stated, but these two halls were considered more central.

In Penticton, the Penticton schools will contain the registration headquarters, but the Vernon location has not been set yet.

H. V. Craig returned on Tuesday evening from an inspection trip to Beaverdell, Greenwood, Grand Forks, Oliver, Princeton, Penticton, Naramata, Summerland and Peachland. Deputy registrars have been selected in all the polling divisions in these districts for appointment immediately.

Nominations for these offices have been made with the assistance of all political parties and on a strictly non-partisan basis, Mr. Craig states. Every possible assistance has been rendered in every polling division without exception.

## TWO KELOWNA STUDENTS WIN SCHOLARSHIPS

Barbara Mary D. Burrows is Highest Ranking Student Outside of Coast Centres

TIES WITH P. R. GIRL

Rosamund Russell Leads All Senior Matriculation Students in Yale and Kootenay Districts

Barbara Mary D. Burrows, Kelowna High School student, received the honor of obtaining the highest ranking of any student graduating from senior matriculation outside of the coast centres and she will receive a scholarship amounting to \$175. She was tied with Annie B. Paterson, Prince Rupert High School.

A similar scholarship award comes to another brilliant Kelowna High School student, graduating from the senior matriculation class. Rosamund A. Russell was the winner of this scholarship, ranking highest in Districts 6 and 7, Yale and Kootenay.

Congratulations from all over the province have been heaped on these two students who have brought such signal honor to the Kelowna High School.

Barbara Burrows, aged 18, was born in Trail but received her first schooling at a private school in Victoria. Her next school was at the Coast Copper Co. property, north of Vancouver Island. Seven years ago she moved here with her parents, Mr. and Mrs. John H. Burrows, who reside at the corner of Burne and Pendergo. Mr. Burrows is an employee of the Consolidated Mining & Smelting Co.

Rosamund Russell is the 18-year-old daughter of Mr. and Mrs. P. E. Russell. Mr. Russell is Secretary of the Kelowna Hospital Society. Born in 1921, at West Vancouver, Rosamund Russell attended the Edith Cavell School, coming to Kelowna in 1932 to enter the Kelowna schools. She has taken an active part in school work, having been President of the Students' Council in 1939. Last year, she was one of

## LAST OUT OF FRANCE BEFORE SURRENDER

A view of the deck of the S.S. Baron Nairn, British ship that took the last load of refugees before the French surrender, as she pulled out of St. Jean de Luz, last port of France open on the Atlantic side. French and British soldiers and civilians jam the deck. No one looks back at the receding coast of France.

## Recruiting for Three Military Units Goes Forward in Valley

5th Canadian Motorcycle Regiment Likely to Go Into Camp at Vernon Next Week—Waiting Necessary Supplies Before Starting Training—B.C. Dragoons, N.P.A.M., Has Waiting List for B Squadron Here and Extra Troops Likely to be Formed—D Company, R.M.R.'s, Recruiting to Strength of 95 This Week—Officers go to Coast and Calgary for Instruction

RECRUITING for the 5th Canadian Motorcycle Regiment, C.A.S.F.; the B.C. Dragoons, N.P.A.M., Armored Car Regiment, and the Rocky Mountain Rangers, N.P.A.M., Infantry 2nd Battalion, continues in the Okanagan this week. Lt.-Col. G. C. Oswell declared yesterday that he hoped sufficient equipment would arrive from headquarters to enable the camp at Vernon for the Motorcycle Regiment to commence next week. In the meantime, recruits are being taken in for this Regiment and some training is being given at the Armory in Kelowna, but other activity is marking time.

Possibility that two troops may be formed under B Squadron, B.C. Dragoons was indicated by Lt.-Col. Oswell on Wednesday and there is a considerable number of men on the waiting list. The response at Penticton for C Squadron recruiting has also been active and another troop may be formed there. Headquarters staff of the B.C. Dragoons remains in Kelowna.

Water lines and showers are in readiness for the Motorcycle Regiment camp at Vernon, while most of the tents are available and some were put up on Wednesday. Blankets and cook stoves are still needed and until they arrive from the coast camp activity cannot really commence.

Recruiting at the Armory for the D Company, 2nd Battalion R.M.R.'s is continuing in Kelowna this week. Second-Lieutenant Harry Webb is in charge of recruiting under Capt. G. D. "Paddy" Cameron, M.C. Recruiting is possible from 9:30 a.m. to 1 p.m., 2:15 p.m. to 3:15 p.m. and 7:15 to 9:15 p.m. About a third of D Company's strength is recruited and it is expected that the company will be up to strength and parades can be started next week. Medical examination will also be conducted next week, it is hoped.

On headquarters staff of the Motorcycle Regiment with Lt.-Col. Oswell, O.C., is Capt. H. R. Rebbitt, M.C., D.C.M. of Victoria, who arrived in Kelowna on Friday, to act as Adjutant. Quartermaster will be Lt. P. V. Tempest, formerly of Kelowna, and lately a resident at Victoria. Regimental Sergeant-Major Henry, formerly in that post with the Lord Strathcona Horse, will be attached to the Motorcycle Regiment.

Three Squadrons  
Three squadrons will be recruited for the Motorcycle Regiment, with Major E. Poole, M.C., of Armstrong, in command of A Squadron; Major M. V. McGuire, Vernon, commanding B Squadron; and Major A. R. Kelowna, in charge of C Squadron.

Under these squadron commanders will be Capt. A. R. Temple, Summerland, A Squadron; Capt. H. R. Henry, M.C., B Squadron, and Capt. J. Pitt-Brooke, C Squadron.

Recruiting for coast regiments

## TOM DALY LEADS ALL OF CANADA

Reports from Penticton indicate that Thomas Dalrymple, representative of the Sun Life Assurance Co., led all other salesmen in the Dominion of Canada for the business year ending July 12 last. Mr. Daly was informed of his success by wire on Monday afternoon, Mr. Daly is the only senior member this year in the Macaulay Club, a signal honor in the Sun Life company.

## Kelowna Resident Donates \$400 to Win War Regatta

Anonymous Gift of War Savings Certificates to be Used in Any Manner Found Suitable, Received by Kelowna Regatta Committee with Gratitude—Plans for 34th Annual Aquatic Event Proceed Apace—Big Military Parade Planned and Many Bands Expected to Take Part—Bathing Beauty Contest and Naval Pageant are to be Features—University of Washington and Vancouver Rowing Club Crews to Compete Here

Kelowna Swimmers Showing Fine Style

WITH but two weeks left, the Kelowna "Win the War" Regatta plans are fast taking shape and every indication points towards one of the most outstanding regattas in the thirty-four years of such successful events. With twenty organizations in Kelowna co-operating with the Kelowna Aquatic Association directors, in order to put this event over the top, its success is practically assured now. Every effort is being made to keep expenses down to the minimum and yet provide as high-class a form of entertainment as has thrilled regatta followers in years past.

## REFUSED TO HAVE NATIONAL ANTHEM SUNG

Rev. W. E. G. Dovey, Former Pastor of Peachland-Westbank United Church, Committed for Trial Under Defence of Canada Regulations

Rev. W. E. G. Dovey, former pastor of the United Church for Peachland-Westbank, was committed for trial under Defence of Canada regulations late on Wednesday afternoon at Penticton. The minister was charged with making statements allegedly contrary to the Dominion war effort. Defence was reserved. The hearing was held before Stipendiary Magistrate George A. McLeod, of Penticton. Prosecution was in the hands of M. M. Colquhoun, of Penticton, and defense by John Aikens, of the firm of Boyle and Aikens, Penticton.

Evidence was given by several members of the Board of Stewards of the Peachland United Church, principal testimony being by W. A. Sutherland, Chairman of the Board at the time the alleged offence was committed.

One of the key points of the hearing was that the defendant had

Turn to Page 4, Story 6

## PREVENTORIUM TO BE NEARLY \$200 RICHER

Second Annual Youth Day, Operated by Kelowna Youth Council, Not as Well Patronized as in 1939

It has been estimated that the profit for the Gordon Campbell Preventorium from Youth Day, operated at the Kelowna City Park last Thursday, July 18, by the Kelowna Youth Council, will amount to about \$175. Although the cause was a worthy one, the Youth Day was not as well patronized as the first attempt last year when \$500 profit was turned over to the Preventorium.

Despite the hard work of a large group of workers representing more than twenty organizations, the response was not as great, Pauline Engel, Youth Council President, Turn to Page 4, Story 7

## TWO ACCIDENTS IN THIS DISTRICT

Motor vehicles driven by Olaf Hill and J. S. J. Gibb, of Kelowna, collided at the intersection of Richmond and Doyle on Monday, July 22, 1940. The cause was a wide extent of about \$30. Another accident occurred on the Beaverdell road, ten miles south of Kelowna, on Sunday, July 21, when cars driven by J. R. Anselm, of Penticton, and Donald E. S. MacKenzie, of Beaverdell, came together on a sharp corner. The Alberta car reported damage of about \$180 and the Beaverdell car received about \$40 damage.

## Jobbers and Cannerymen Anxious to Co-operate with Government Idea and Stop United States Imports

F. A. Lewis, Chairman of B.C.F.G.A. Tariff Committee, Writes President D. M. Rattray Concerning Word Received from Trade—Many Jobbers and Cannerymen Willing to Make Sacrifices in Order to Preserve Canadian Exchange

THAT jobbers, cannerymen and distributors are prepared to make sacrifices and forget personal profits in assisting Canada in its war time effort to control foreign exchange, was the statement of F. A. Lewis, Chairman of the Tariff Committee of the B.C.F.G.A. in a letter to President D. M. Rattray issued this week. Mr. Lewis has reviewed the tariff situation as it exists at present and points to some efforts made to cancel the value for duty on apricots. Mr. Lewis' letter, which is important to the entire fresh and canned fruit industry, follows:

You will have noticed by copies for that matter of protecting the of wire and letter correspondence fruit and vegetable industry as a whole, but the much larger one of protecting Canada and the Empire by emulating our Government leadership in the matter of conservation of the Canadian dollar to the nth degree.

As Chairman of your Tariff Committee I have received numerous calls asking for data on supplies here and information as to whether I, as head of the Tariff Committee, would oppose any application for cancellation of values for duty. To say the least it has been very difficult and at times an embarrassing situation. The policy which I have followed has been to remind those enquiring that this is not merely a question of protecting a few apricot growers or

## SHIPMENTS OF VALLEY FRUIT ROLL STEADILY

One Hundred and Eight Cars of Fruit and Vegetables Left for Domestic Market Last Week

One hundred and eight cars of fruit and vegetables left the Okanagan last week through B. C. Tree Fruits Ltd., the single selling agency. A. K. Loyd stated on Wednesday that these shipments consisted of 76 cars of mixed fruit and vegetables, 13 cars of canneries apricots, five cars of apricots to the fresh fruit market, seven cars of mature tomatoes to Vancouver, and seven cars of mature green tomatoes.

Apricots are practically over now while a plentiful supply of Jubilee, Alexander and Triumph peaches from the southern part of the Valley is moving. Rochester peaches are starting to roll and should be plentiful by Saturday.

Transparent apple supplies are diminishing and Duchess cookers are starting to come in in quantity. Apple sales slacked off last week but have been picking up again since Monday.

Plums are coming in freely in the south, and cantaloupe supplies are rolling at 1,000 to 1,200 crates daily. Transcendent crab apples are commencing to move. Some Joe Rich lettuce is expected to arrive for market in a few days.

A few Dr. Jules pears and Clapp's Favorites are ready for market, and Osoyoos is expected to supply some Bartlett by the end of the week.

Throughout the apricot deal the market remained at a steady level and the main price of 75 cents for No. 1 and 65 cents for No. 2 was obtained practically throughout. It was a good, clean deal, General Manager A. K. Loyd states.

## FIRE DESTROYS SLAUGHTERHOUSE

Fire of unknown origin entirely destroyed the slaughterhouse of D. K. Gordon Ltd. on the Pioneer Ranch, near Mission Creek, on Sunday, July 21, about 10 a.m. It is reported. The building was valued at \$6,000 and the contents about \$4,000. The loss was partially covered by insurance. The blaze is believed to have originated on the killing floor but the cause is unknown.

## THE KELOWNA COURIER

Established 1904

A newspaper devoted to the interests of the Kelowna District of the Okanagan Valley in British Columbia, published every Thursday morning by The Kelowna Courier Ltd. The Kelowna Courier is a member of the Canadian Weekly Newspaper Association and of the British Columbia Weekly Newspaper Association.

Subscription Rate: \$2.50 in Canada, \$3.00 in other countries. Single copies, 10c each.

MEMBER OF "CLASS A" WEEKLIES

Winner, 1939

Charles Clark Cup

Emblematic of the best all-round class B weekly in Canada.

Winner, 1939

MacBeth Memorial Shield

Emblematic of the best editorial page in its class in Canada.

Winner, 1938

M. A. James Memorial Shield

Emblematic of the best front page in its class in Canada.

G. C. Rose, President  
R. A. Fraser, Secretary.R. P. MacLean,  
Editor and Manager

The Kelowna Courier has by far the greatest circulation of any newspaper circulating in the Central Okanagan Valley.

THURSDAY, JULY 25th, 1940

## Some Intimation Needed

During the past two weeks the possibility of the fruit industry being seriously and adversely affected by the enlistment of its key men and the compulsory training of employees of packing houses during the rush season has caused much concern to many individuals and organizations in this Valley. It has now come to the point where there is a definite feeling that if the industry plays a worthwhile part in the economy of the country, it is time the authorities gave some indication of this and intimated that recruiting and training should not be allowed to wreck this highly specialized industry.

Throughout the Okanagan there are a number of highly trained men, specialists in their own right, who know the fruit industry as thoroughly as it is possible to know that complicated business. These men play an important part in the marketing of the Okanagan's fruit crop; in short, they are key men who cannot be replaced should they be suddenly removed. It would take two or three years to train new men and give them the intimate knowledge of the business which these men possess.

Some of these key men have already joined the Canadian Active Service Force and are lost to the fruit industry. There is no suggestion that a man should not join the C.A.S.F. if he feels it his duty to do so. On the other hand, it is quite fair to point out that it is quite possible a man may be doing a greater service to his country by continuing his efforts on behalf of a great industry than through military service.

This is going to be a difficult marketing year for the fruit industry. There is no mistake about that. This year all the brains and experience that are available are going to be desperately needed. And any man in a position to make a contribution to the welfare of the industry may be effectively serving the country as many thousands of dollars in taxes originate through the fruit industry of the Valley, to say nothing of numerous other ways the economy of the entire country would be affected should the fruit industry be vitally stricken.

But while the industry is being affected through the enlistment of many of its trained key men, there is a growing fear that the industry may be seriously crippled through the calling up of workers in the orchards and packing houses for training with the non-permanent forces or as trainees under the national registration plan.

The government has indicated that it will endeavor to avoid calling agricultural workers during the harvest season. It may be, therefore, that care will be taken not to dislocate the fruit industry during the packing season. Many of the men in the packing houses hold positions which cannot be filled at a moment's notice. Much of the heavy work cannot be handled by women in any case.

If the authorities should call a large number of men in this Valley to go into training for two or four or six weeks between now and the middle of November, the industry would be thrown into a chaotic condition.

It is not thought that the authorities have any such intention but, nevertheless, there have as yet been no assurances forthcoming that this condition will not arise, and, as a result, the entire industry has a fine case of the jitters.

The authorities, it is realized, have many things on their minds, but surely it is not too much to ask that some assurances be given that the fruit crop of this Valley may be handled without a too great disturbance in this very difficult marketing year.

And it may not be too much to suggest that the authorities give some indication as to whether or not they consider it advisable for the key men of the industry to join the C.A.S.F. or to continue their efforts to keep this Valley on as even a keel as possible.

## It Is a Duty

Two weeks from today Kelowna's Win-The-War Regatta will be well under way, and it is hoped, a substantial profit will be piling up to be contributed to Canada's war effort.

The one salient fact about this year's regatta that should be remembered is that every cent of the profits are going to be forwarded to the Dominion minister of finance to be used as he thinks best to further the prosecution of the war.

And the effort to make that profit as large as possible is no half-hearted measure. Every person connected in any manner with the regatta is doing his utmost to curtail expenses that the contribution may be the larger.

Prizes have been completely wiped out as far as expenses are concerned. This has been done at the suggestion of the competitors who are anxious to contribute their efforts towards the cause. The perennial cups and trophies will be awarded, of course, and ribbons will replace the merchandise prizes which have been given in other years.

In many other directions, voluntary contributions are assisting in the curtailment of expenses. For instance, volunteers will serve without charge as gatekeepers, police and in a dozen other capacities, while women will do their part through the taking over of lunch and candy stalls.

While the regatta has always been a community effort, it will be more so than ever this year. Scores of persons are throwing their whole-hearted effort behind it and plans are being made to make it the outstanding regatta of a decade.

While the organization may be perfect, the ultimate success depends entirely upon the general public and the manner in which it supports this effort to assist in financing the war. Persons attending the regatta will receive full value—and more—for their money, but they will be doing more. Not a percentage but every cent of the profits will go towards winning the war. By buying admission tickets, by patronizing the games and booths, by purchasing tickets on the raffles, a direct contribution is being made to the country's cause.

The people of this district have in the past shown their loyalty in a substantial manner. On August 7th and 8th, they have an unprecedented opportunity of demonstrating their loyalty and affection once again. By supporting the regatta this year, they not only will be boosting the district's outstanding community event, but will be making a definite and concrete contribution to the effort this country is making for the preservation of the mode of life of a free people.

## A Fine Example

A Kelowna man who chooses to remain anonymous has given a lead in supporting Kelowna's Win-The-War Regatta which is going to be difficult for the remainder of the district to follow.

He has given four hundred dollars' worth of war savings certificates to the Aquatic to be used in any manner the directors may decide.

His objective, it is understood, was two-fold. He desired to show, in some tangible manner, his appreciation of the splendid work of the Aquatic Association and at the same time he desired to make some contribution towards Canada's war effort.

It is probable that the certificates he has donated will be used to pay some of the prizes of the raffle, as this year the prizes for this event are to be entirely war certificates. Used in this way, the anonymous citizen's generous donation will be a very definite contribution to the regatta's war fund and the ultimate profits will be increased by four hundred dollars.

This man might have purchased the war certificates and locked them in his safe and patted himself on the back as having done something for the country, when, in reality, he had merely made a good personal investment. But he reasoned otherwise and the result is this straight donation which will assist the Aquatic to increase its contribution to Canada's war funds.

The strictness with which the identity of this man is guarded is but an indication of his sincerity. He is not seeking publicity. However, his gesture cannot be passed by without some recognition. If all the people of this district were as keenly interested in the welfare of the regatta as this man, its success would be phenomenal. If the people of Canada were as sincere in their desire to further the war effort as this man, our war effort would be considerably advanced beyond its present stages. It is not yet too late to throw every effort we have behind both these projects. Indeed, they are one and the same, as every cent of profit from the regatta goes to assist in the war financing. You may not be able to give a donation of \$400.00, or indeed one dollar, but you can, at least, give your enthusiastic moral support.

## Bulk Shipments

For the first time in six years the prairies will see Okanagan apples shipped in bulk. This decision made last week is one of the most revolutionary moves made this season but the reasons behind it are not difficult to find.

There is every possibility that the export sales will be considerably reduced this year and if the crop is to be disposed of new markets must be found and the most logical place to look for increased sales is the domestic market.

The prairies are the natural outlet and, although a substantial increase in sales was made there last season, it was also demonstrated that apples were not reaching the consumer in the lower-income brackets in the quantities necessary to substantially increase the consumption.

To reach this type of consumer that the domestic sales may be increased to absorb some of the surplus resulting from the curtailment of export shipments, it has been decided to experiment with bulk shipments. The decision was not reached without careful consideration and the full approval of Dominion authorities.

This bulk deal will not prove a happy one to handle. Many difficulties will arise and much grief will be encountered but these can be overcome. The marketing situation has changed a great deal in the six years since bulk shipments were last tried. With the better control methods now available, the grief can probably be met and

the difficulties overcome.

Faced with necessity of expanding the domestic market—in short, finding new apple eaters—the industry is going to give bulk shipments a fair and reasonable trial. With efficient organization and rigid control, interesting results may be obtained. It is, at least, a sincere effort on the part of the industry to find new and greater outlets on the domestic market.

## Ignore the Sob Sisters

Assuming that the British Navy still rules the seas—and there is no prospect of any change in that regard—Germany will be addressing frantic appeals to America for food before the snow flies. As a matter of fact it has already begun as the Nazis have indicated to the United States that the people of France will need assistance this winter. That being the case, it is to be hoped that we shall not have to endure a lot of sloppy sentimentality about starving civilians in France, Belgium, Poland and other conquered countries whose millions have been crushed by the mechanized monsters of the Huns after their betrayal by the Quislings and Laval and Petains, who were supposed to be preparing their defenses against the Nazi hordes.

The grip of the Royal Navy tightens about the throats of the totalitarian states. As the blockade increases the remorseless pressure

against the enemies of civilization, the United States will be flooded with propaganda depicting the wolf at the door of Europe. Will the sob sisters who are to be found by the million on this continent be foolish enough to ship food to those stricken by famine conditions and shut off from the outside world by Britain's formidable fleet? Bread intended for starving civilians will never reach them, but will be seized by the ruthless Nazis to feed the baby-killers who are dropping bombs on the British Isles, or to maintain the armies of occupation which are crushing women and children in all the countries prostrate under the Prussian avalanche.

Germany launched an unrestricted submarine campaign against Britain in 1916 with the object of starving the fifty million people of the United Kingdom into submission. But for the "Q" boats and other weapons forged by Britain to destroy the lurking undersea boats, famine would have forced the Mother Country to capitulate in a few months.

The blockade is a method of warfare generally recognized by civilian nations as legitimate. In the circumstances, neutral or non-belligerent people fairly may be asked to refrain from making emotional appeals about starving women and children. Britain's economic blockade cannot compare for cruelty with the methods of the German dive-bombers which machine-gun helpless refugees in the open roads.

## Kelowna In Bygone Days

(From the files of the Kelowna Courier)

THIRTY YEARS AGO  
Thursday, July 21, 1910

"It is expected that the new school will be ready for occupancy by the time the summer vacation is at an end. The school furniture in the Keller Block has already been moved into the new building."

"Already business in Penticton is feeling the results of railroad construction, and in anticipation of acceleration of business at the southern end of the lake the Bank of Montreal has made arrangements for opening a branch there within a week or two, while two Vernon companies have decided to locate branches there."

"About three hundred Enderbyites participated in the Sunday School excursion on Wednesday from the northern Okanagan city and spent an enjoyable day. They arrived about 11.45 a.m., after a pleasant sail down the lake on the 'Aberdeen,' and upon landing picnicked in the Park and proceeded to enjoy themselves in diverse ways. The return trip was commenced about 5.45 p.m. Too bad that those delightful excursions by water are a thing of the past."

"Work on the further extension of the city waterworks system is again in progress, as a result of the passing of the recent by-law authorizing the borrowing of additional money for the purpose. On Richter St., 700 feet is being laid; 1,300 feet on Harvey Avenue, and 200 feet on Eli Avenue, towards the tennis courts. It is also planned to run 700 feet additional on Pendozi St. to the Hospital, about 400 feet on Cadder Ave. and 500 feet additional on Ellis St., together with a further extension on Bernard Ave. towards the city limits. About twelve hydrants will be located throughout the area which has been brought under the waterworks system, and should provide good fire protection for the greater part of the residential section of the city."

"Several bush fires have been burning in the Valley for the past few weeks, and, as the result of the heavy wind of last Sunday, have been fanned into blazes of large proportions. The atmosphere at time of writing is extremely unpleasant, the air being so full of smoke that the adjacent hills are all but obscured from view."

A brief but severe thunderstorm on July 15th was very unusual, that it caused a considerable amount of damage. According to residents of 18 years' standing, they had no recollection of lightning having ever struck in town, but one flash, at least, upset this tradition. The account given in The Courier is as follows:

"An electric storm is an infrequent occurrence in the Okanagan Valley, and still more rarely do we hear of lightning causing any damage. It was, therefore, very startling to old-timers to see the 'place where it hit' on Friday evening."

"After several days of more than ordinarily hot weather, ominous clouds crept up about sundown on Friday, but the actual storm was very short and sharp, there being only about half-a-dozen flashes and peals of thunder that seemed anywhere near at hand. The bolt that caused trouble seemed to descend in the very heart of the town, and the stunning crash of the thunder was simultaneous with it, sounding like some monster piece of ordnance. Spectators on the streets claim to have seen a long, zig-zag flash, which seemed to travel parallel with the earth and then descend in several places at once, and results would seem to bear out the truth of their assertions. As the same flash apparently struck at the same time C. G. Clement's house, the telephone system, and ran along the wires into the power house, burning out the insulation of the armature in one or two places and necessitating the plant being shut down. The next flash seemed a long distance away and, with two or three muffled peals of thunder, the storm died away as quickly as it had come."

"Outside of the power house, not much damage was done. The bolt struck the chimney of Mr. Clement's house, knocked two bricks off and tore off a belt of shingles about 18 inches wide from the chimney to the eave. It also knocked down a lot of plaster from the ceiling upstairs, but three or four hours' work put matters to right next morning. The damage to the power house, which it was feared might turn out extensive, has luckily proved not so, and the lightning service was resumed on Tuesday evening."

"H. H. Millie was also a sufferer, many of his phones

being put out of business for the time being. As most of them were well equipped with fuses, however, he escaped serious loss, and his chief outlays are in waste of time and replacing fuses."

"Postmaster Bailey assures us that, during his residence of eighteen years in Kelowna, he does not remember a case ever happening of lightning striking in town. The editor of this great family journal can cap member any such occurrence having taken place before. The peculiar configuration of the distant hills usually serves to draw thunderstorms, which almost invariably come up from the south, away from Kelowna, and they split in two, each portion following the chain of mountains on the west side of Okanagan Lake and the mountain range, generally leaving Kelowna untouched."

Defeating the home team at Kamloops on July 16th, by 8 goals to 3, the Kelowna polo team won the Roper Cup. The Kelowna players included: W. G. Benson (Capt.), C. K. L. Pym, G. K. Smith and Dr. Richards.

TWENTY YEARS AGO  
Thursday, July 22, 1920

"Mr. and Mrs. W. R. Foster, recent arrivals from the Grimsby fruit district of Ontario, on Monday completed arrangements for the purchase of the old Loosmore ranch at Rutland, comprising twenty acres of good fruit land."

"The 'Sicamous' has been running far behind schedule owing to the heavy express and freight business entailed by the movement of cherries and early vegetables. As usual, the placing of the 'Okanagan' on the run is being put off as late as possible while passengers and mail have to suffer the delays of an entirely inadequate service. So long as people take this sort of thing supinely without protest it will continue, and it looks at times as though the people of the Okanagan have lost the courageous spirit with which they used to resent such treatment in the past."

Those being prohibition times, the only beverage with a faint resemblance to alcohol permissible of sale in Kelowna was a weak and watery compound known as "near-beer." Even it could not be sold without a special license. Applications having been received from Raymer & MacRae, the Ballard Hotel Co., Johnston & Johnston, Barnes & Sullivan and the Occidental Fruit Co., such licenses were granted to them by the City Council. All others who had been selling near-beer, but had not applied for a license, were served with a warning that they must discontinue sale of the brew at an early date.

TEN YEARS AGO  
Thursday, July 24, 1930

"The Crown Fruit Co., Ltd., have acquired the Geo. Rowcliffe, Ltd. interests, including packing houses in Kelowna, East Kelowna, Westbank, Peachland and Penticton. Their capital has been greatly increased."

"An outbreak of fire on the mountain south of Okanagan Mission yesterday afternoon spread rapidly, fanned by a strong southerly breeze; and a large gang of men, under the direction of Fire Warden J. Woods, had a hard task to battle with it. Smoke is still rolling up from the area involved, but the efforts of the fire fighters promise to be crowned with success."

The City Council was actively interested at this time in the matter of securing a local airport, and details of the efforts made in this regard were given to a delegation from the Board of Trade which urged action towards such end. Ald. O. L. Jones, who was a member of the special committee appointed by the Council to investigate local possibilities for an air field, stated that the property owned by the City in the north end of the town, which at first had been deemed eminently suitable, was found to be too small in area to afford a sufficiently long runway, while, for land planes, it was in dangerous proximity to Knox Mountain. The land at Rutland, used as a temporary air field, had been approved as a site by all the aviators who had examined it, but the price at which it was held was prohibitive. However, the Council decided to continue their search for a suitable site, and Ald. J. Galbraith was named with Ald. Jones to carry on investigations.

## r.p.m.'s column

GIBRALTAR IS FIGURING very prominently in the news these days and it would be just as well if we remembered our history, particularly in view of the claims of Dictator Franco and his exuberant Spanish Falangists. Britain holds Gibraltar today, not as a mere prize of war, but as part of a bargain for which we paid in full and gave good value for what we received. It is quite true that Sir George Rooke took the Rock in 1704 during the War of the Spanish Succession, and that Sir George Elliott held it during the famous siege from 1779 to 1783 when the Spaniards attacked it as allies of the American colonists in the Revolutionary War. . . . But by the treaty of Paris, which ended that war—in which Spain was on the winning side—Spain agreed to Britain's retention of Gibraltar in return for her acquisition of Florida and Minorca. She sold Florida to the United States twenty years later. If, therefore, Spain desires to regain Gibraltar, the equitable procedure would appear to be for her to repurchase Florida from the United States and cede it to us in return for the Rock together with Minorca. It is a proposal we might well consider. . . .

r p m

DO YOU KNOW BERTIE Bacon? You know those jolly fellows Tommy Atkins and Jack Tar? Well Bertie Bacon is their new running mate and from all indications is just as strong and as hearty a chap as the other. . . . to his friends. Bertie Bacon, you see, is the new name for the British flyers. Tommy Atkins first got his name from the specimen letter heading suggested in official instructions for members of the British armed forces. The heading still reads: "1234567 Private T. Atkins." For the comparatively new service, the Royal Air Force, a new name has been invented and some unknown genius chose "7654321 Sgt. A. Bacon, Such-and-such Squadron." As "A" signifies "Albert," "Bertie" Bacon takes his place in the roll of fame. What a triumph vibrate Tommy, Jack and Bertie have proven themselves to be! . . . The British Ministry of Economic Warfare, which is responsible for the economic blockade of enemy countries, has as its telegraphic address "Whiskers, London"—a humorous allusion to the Ministry's initials W. E. W. Who says there is no humor in Government offices. . . . The dreaded Gestapo, in Germany, forbid relatives of dead soldiers to wear mourning or to speak about the death to anyone outside their own families. Offenders meet with drastic punishment. In this way Germany prevents knowledge of huge casualty lists from becoming known to the public. . . .

r p m

A COUPLE OR THREE weeks ago Manager Le Campbell had one of those Pete Smith shorts on his program. . . . you know, the chap with the raucous voice who has amusing remarks to make, despite which the picture is always an interesting one. . . . It wasn't unusual that one of these pictures should be shown but the angle of this particular one was a bit different. Some cleaning expert was demonstrating the low-down on how to remove spots and other household hints. . . . have heard those tips discussed by several people and the whole lot bemoans the fact that they could not remember the details. One day, suddenly overcome with a boy scout desire to do a good turn, I started out to find the method of procedure that was advised in the film for a dozen different situations. I did not get them all but here are a few at least. . . . To pick up splintered glass without cutting oneself, dip cotton wool in water and press over the splinters. . . . To take out iodine, put a quarter-box of starch in cold water. . . . To take out berry stains, put a folded towel beneath stained article and pat it with a brush moistened with ammonia water. . . . To take out a stain from a rug, repeat this with vinegar in the same manner, with an outward motion of the brush. Rinse with soapy suds. . . . To take paint off shoes, use an ordinary match head dipped in cold water. . . . To remove scorch marks, sprinkle with peroxide, cover with a damp towel and iron. Be sure it is only a scorch and not a burned hole. . . . Cut this out and keep it, because I refuse to trespass on the women's department again. . . . and the next time Pete Smith makes a picture like that I hope he sends out leaflets with it. . . .

r p m

THE MAN ON THE STREET is frequently puzzled by the terminology the printer uses to describe his work. And well he may for some of the simplest things have the strangest appellations. The whole thing can be traced back to the monasteries where the first books were made and printing given its first great impetus, and to the monks who gave printing its terminology, which even today is mostly derived from Latin. . . . Since monastic chapels were first used as composing rooms, such rooms still are called chapels. Holywater fonts were convenient receptacles for the wooden blocks used as type, and a case or particular style of type is still called a font. Brevier type was originally used for setting up monks' breviaries. The word compositor, synonymous with printer, is Latin and means one who puts type together. The Latin word imposition, meaning a laying out, still is used to refer to the laying out of type. The receptacle for bad type still is called the hell-box. The apprentice boy, who originally cleaned out the hell box, still is called the printer's devil. The Latin terms caret, deke and asterisk still are used in printing. The derivatives, folio, quarto, octavo, still are used in bookbinding. . . .

r p m

A READER HAS suggested that this column should have something to say about wedding processions of cars that proceed through the streets with all horns blating. In sultry St. Louis, where tempers wear thin in August, police are slapping down on the motorized friend of the newlyweds who serenades them en route. Police in other spots are intermittently urged to do likewise. . . . It can be admitted that a car horn under the thumb of a wedding guest full of beer (presumably) and animal spirits is pretty awful, without feeling that the peace of the community is permanently damaged. It takes the place of the old-time charivari, which may have disturbed only the immediate neighborhood but carried on for hours. The brides are presumed to be embarrassed by the bedlam. . . . an erroneous presumption; a bit dazed, perhaps, but not unhappy. And as for the groom, he is in the catalepsy usual with grooms. . . . On the whole the two who are pursued to the railway station or wherever they go by a pack of cars in full cry would probably miss it if their friends failed in this observance. (Also the tin cans lashed to the rear bumper by loving hands). . . . Tomorrow or next week, the boy will go back to the grind, and the girl, as often as not, to the restaurant job; and the cavalcade through the streets will be something to remember. It would be nice if it were something better and tonier and not so loud, but the more sedate can bear with a few minutes' break in public decorum, if no fenders are sideswiped and no posts snapped. As things go these days, a passing display of exuberance is rather to be cherished than despised. . . .

## SCHOOLS ARE PREPARED FOR FALL SEASON

Primary School Renovated and New Ramp for Elementary School Erected—Could Provide Room for 200 Guest Children

After the general renovation of the schools last summer, they have been prepared for the fall season. The primary school has been renovated inside and out and the old wooden ramp on the east side of the elementary school has been torn out and replaced with a concrete ramp, complete with handrails. It was found that the old wooden ramp was in poor condition and the new concrete ramp will provide a safe and proper entrance to the elementary school. The new ramp is 100 feet long and 10 feet wide, and will provide a safe and proper entrance to the elementary school. The new ramp is 100 feet long and 10 feet wide, and will provide a safe and proper entrance to the elementary school.

All minor improvements are being undertaken by the janitors during the summer holidays. A recent request to the school trustees for use of the schoolrooms for Sunday School teachers' instruction was refused, but the school trustees have agreed to provide a small portion of the playground for instruction has been allowed.

In reply to a letter from Dr. S. J. Willis, Superintendent of Education, the Kelowna School Board has informed the educationist that the school could, if necessary, accommodate 200 more children if that number were needed to be placed here from the ranks of the guest children. More furniture and teachers would have to be provided in this instance. This enquiry was in response to questions asked Dr. Willis by Dr. George F. Davidson, Director of Social Welfare.

Such an influx of guest children does not seem probable in view of the decision of the British Government against sending them to Canada in any large numbers. Two resignations have been received by the trustees and the vacancies thus occurring have been replaced. Miss Catherine Irwin has resigned from the elementary school and will be replaced by Miss Helen Potter, of Salmon Arm. Miss Potter was a substitute teacher here last term. Miss Alice Parker, whose marriage to Mr. J. Allen, of the Kelowna, was recently announced, has resigned and this vacancy will be filled by Miss Helen Gilroy, of Cranbrook.

The appointment of Joanne Brown, of Vancouver, as librarian, was announced some weeks ago. Congratulations were extended to Dr. W. J. Knox, school health doctor, and to the School Nurse, Mrs. Dorothy McKenzie, on the success of the past year regarding general school health. The trustees commented that there had been no serious epidemics in the schools for some years.

On Thursday last, the Kelowna School Board met representatives of school boards from surrounding districts which sent pupils to the Kelowna schools. There was a round-table discussion on the subject of these pupils who come in to Kelowna for tuition in the high school.

Fourteen B.C. championships will be decided at the 34th Annual Kelowna "Win the War" Regatta, to be held in Kelowna on Wednesday and Thursday, August 7 and 8. Mr. R. F. Parkinson, Secretary-Manager states, "We received word of these awards to Kelowna following a meeting of the B.C. section of the Canadian Amateur Swimming Association in Vancouver earlier this week.

A point which pleases the Kelowna officials mightily is that for the first time in the history of swimming in British Columbia, American swimmers may compete for B.C. championships, provided they have the approval of the proper swimming and amateur associations in the United States.

This is a point which Kelowna Aquatic directors have fought in favor of for years and have at last succeeded in selling to the swimming moguls at the coast.

ing concerned accused's refusal to have the national anthem sung at the conclusion of the Sunday services, as was requested by the stewards, and by the congregation. The other concerned statements stated to have been made by Mr. Dovey at a meeting of the stewards on Sunday, and also at subsequent dates.

In one of these statements made at a meeting of the stewards on December 12, the minister was alleged by two witnesses to have said that H. M. The King was a German. Mr. Sutherland, in his testimony, referred to statements alleged to have been made by the minister to Sunday School class. In these statements, the minister was alleged to have said that the class of the decade of the Russian royalty, mentioning the development there since their overthrow, mentioned their European royalty as in similar class, and then made slighting references to H. M. The King George.

J. A. Maddock, second witness in the morning session, spoke of differences of opinion on the subject of the national anthem. He and Mr. Sutherland stated that attempts were made to reach a compromise in this, but to no avail. Mr. Maddock said that on December 3, he and the choir, by arrangement, started the National Anthem. Later, a short conference was held with the minister, who then registered objection to the rendering of the piece, stating that it would spoil the service.

Both at this time and later he stated he considered it to be a sacrilege, and that he thought it would ruin the service, witness said. At the meeting of the trustees on December 12, he was stated to have used the words "imperialistic" and "flagwaving" in respect to the singing of the anthem. The trustees, when on the stand, said that the practice of singing the national anthem had been followed during the last war, and it was thought fitting it should be performed during the present conflict.

During the afternoon, evidence was brought out that a declaration of loyalty and oath of allegiance was placed before the accused. The evidence was that this was signed by the minister without demur. At the conclusion of the hearing Mr. McLelland committed the man for trial.

## VOLUNTEER CANNERS NEED CANS

Cash for Cans is Exhausted and if Extra Produce to be Conserved More Money Must be Obtained

Representatives of the Kelowna Canning Committee announced this week that the supply of cash for purchases of new available exhausted and donations of cash are urgently needed if this splendid contribution of extra provisions is to be continued. Apples, pears, prunes and tomatoes have been promised and committed, but unless the money for cans is forthcoming, the work will have to be dropped. Those who can help in this way are being asked to telephone Mrs. W. E. Adams or Mrs. F. J. Day.

Contributions of both cherries and beans have been processed and the quantity of canned goods in storage is very gratifying to those engaged in this work, the committee states. Over the week-end, groups of volunteer pickers, including a good number of the younger set, went out to the Mission to pick berries, which were donated by Budgie Borne. This work was organized by Miss Pearce and Miss Vaughn-Jones, who were willingly assisted by residents of Okanagan Mission, L. J. Kelly, of the Rowcliffe Canning Co., kindly put the facilities of the cannery at the disposal of the workers, who processed them there. This donation amounted to about 300 gallon tins.

There have been many inquiries as to the disposal of these canned goods if the guest children are not brought to Canada. E. W. Barton has received word from Red Cross headquarters asking that every bit of surplus food available be conserved. The Red Cross guarantees that these goods will be shipped by them to England to the refugee children or the military hospitals. With this worthwhile end in view, the committee feels that anything which can be conserved for this coming winter should be preserved now.

Recent donations follow: Budgie Borne, one ton of beans; anonymous friend, \$10 for cans and 50 pounds apricots; Margaret Davidson, Trepanier, 50 pounds cherries; Jack Smith, beans; Mrs. C. Weintz, beans; Mrs. S. Gore, tins for jam.

## VERNON LOSES SECOND GAME

Kamloops Wins in Interior League — Westbank Plays Rutland on Sunday

Vernon lost its second game in the Interior Baseball League last Sunday when Kamloops won at home 6-2. Nine Vernon errors were mainly responsible for the Kamloops victory. The Kelowna team, who were defeated by Kamloops, won from Revelstoke by default.

In the South Okanagan League, Westbank Yellow Jackets won from the Kelowna team, 11-9, but this did not change the league standing for the playoffs.

Westbank plays at Rutland next Sunday for the right to meet Kamloops in the final of three series for the league championship.

ent feature of the day, the Walking Marathon, was given by Alderman R. F. Parkinson, who sent 12 competitors on their way over the long course.

Dorothy Zahara finished first in the ladies' section, followed by her sister, Margaret Zahara, with Margaret Zahara in third place. H. Kiedercher was the successful walker in the men's section, finishing ahead of F. Hurstfield and D. Arze Dendy in third place.

## BOXLA STAR DROWNS AT GRAND FORKS

Albert W. Maxwell, Former Member of Kelowna Lacrosse Team, Meets Tragic End

Box lacrosse fans in Kelowna and throughout the Okanagan and Main Line were shocked this week to hear of the sudden, tragic death of one of Kelowna's foremost box lacrosse stars this season—Albert W. Maxwell, aged 21.

Maxwell was drowned when he was attempting to swim the Kettle River on Monday evening, July 22. According to reports from Grand Forks, he jumped from a diving float and was drawn under.

The youthful boxla star came to Kelowna this spring from Nelson, his home town, where his parents, Mr. and Mrs. James H. Maxwell, reside. He was a member of the Royal Bank staff here and was transferred to Grand Forks about three weeks ago.

Although his stay in Kelowna was short, the curly-haired young athlete had made a host of friends in Kelowna, who were shocked at his tragic death. He was one of the best players in the Kelowna boxla squad and had starred with George Foster Mills, now of the Royal Bank staff here, on the Nelson Maple Leafs boxla team last year.

There is no need for me to spin you a long yarn of appreciation—all that has been said before—so I'll just add many thanks. You know how I feel about it.  
Sincerely yours,  
JOHN RENNIE.

RECEIVED OKANAGAN GIFTS.  
Kelowna, July 23, 1940.  
The enclosed letter arrived today—I should be glad if you could find space to print it in the Kelowna Courier.  
Yours faithfully,  
RHODA MARLE, Sec. Treas.  
O.K. Valley Mine Sweeping Fund.

THE MISSIONS TO SEAMEN  
5, The Grange, Wimbledon, London, S.W. 19, Eng.  
25th June, 1940.  
Dear Mrs. Orr-Ewing,  
At last your first shipment of woollies has arrived; it took some time to get it through the Customs but it reached here yesterday, and I hope my telegram will reach you quickly and let you know of its safe arrival. We are delighted with everything; the things are just what is wanted and so nicely made.

by JOHN CLINTON

"Eight quarts of Triton, and put 'em in the back seat," said the gentleman in the 1929 Buick.

"How's that again?" asked our fair-haired dealer.

"Yep, in the back seat, Triton has taken me on vacations, now I'm taking Triton!"

That's how it was, so help us. But it turns out that our customer was driving back to Detroit to get a new car and would have nothing else but Triton.

Well, we're all glowing and happy about the whole thing because we've maintained for a long time, and can prove it at the drop of a hint, that Triton is about the finest oil you can pour in a crank case.

One hundred per cent pure paraffin base, it is, and 100 per cent pure lubricant. The detergent stuff forms so little carbon, itself, that it actually allows your motor to burn up carbon left by OTHER oils.

And if you don't believe it, come in to any of our stations and let us prove it to you. We can do it in from two to three thousand miles, and the whole thing happens while you drive.

Triton changes Ping to Purn—see if it doesn't!

**UNION OIL COMPANY OF CANADA LTD.**

## FOURTEEN B.C. CHAMPIONSHIPS FOR REGATTA

American Swimmers may Compete for B.C. Titles for First Time This Year—Seattle Contingent Coming

Fourteen B.C. championships will be decided at the 34th Annual Kelowna "Win the War" Regatta, to be held in Kelowna on Wednesday and Thursday, August 7 and 8. Mr. R. F. Parkinson, Secretary-Manager states, "We received word of these awards to Kelowna following a meeting of the B.C. section of the Canadian Amateur Swimming Association in Vancouver earlier this week.

A point which pleases the Kelowna officials mightily is that for the first time in the history of swimming in British Columbia, American swimmers may compete for B.C. championships, provided they have the approval of the proper swimming and amateur associations in the United States.

This is a point which Kelowna Aquatic directors have fought in favor of for years and have at last succeeded in selling to the swimming moguls at the coast.

Several prominent Seattle swimmers will be in Kelowna for the Regatta this year, according to Bill O'Hearn, who was a prominent diver at last year's Regatta. Bill will be back and the swimmers will be headed again by Bruce Donaldson. Donaldson has just returned from the national and Pacific Coast championship swim meets in Southern California. He placed second in the national meet. Other members of the Seattle swim crew will be Steve Diebert, Irma Schreiner and Eva Buckley.

Friends in Kelowna will be glad to hear that Wally Shultz, well-known Seattle swimmer who was reported to have broken his neck while diving about a month ago, is recovering. His neck is out of the cast but is still in braces. He expects that before long he can resume his swimming competitions, but that will not be during the Regatta this year.

Lynda Adams, champion B.C. diver, is a likely prospect for the Regatta this year.

The fourteen championships awarded the Regatta are as follows:

**Open Events**  
100 yards freestyle, men and ladies; 300 yards medley relay, men; 150 yards medley relay, ladies; 400 yards relay, freestyle, men; 200 yards relay, freestyle, ladies; 3-metre diving, men and ladies.

**Junior Events—16 and under**  
150 yards medley relay, boys and girls; half-mile Wrigley swims, boys and girls; 50 yards, freestyle, boys and girls.

Tremblingly, a bandit pressed a revolver against Mrs. Edith Graft while a companion looted a drug store register in Philadelphia. "I wish you wouldn't be so nervous," remarked Mrs. Graft. "He's got a right to be," said the aide. "He's getting married next week."

## SCHOOL BOARD EXPECTS RATE REDUCTION SOON

Appraisal of Value of School Buildings and Equipment is Conducted by Coast Firm—The Total New Replacement Value Set at \$253,689

Kelowna School Trustees surveyed the results of an insurance appraisal of the value of the schools' new replacement value of four school buildings, bicycle shed and storage building at \$253,689.36. While the insurable value is set at \$193,601.97. The depreciated value is \$200,882.40, and the insurance exclusions amount to \$7,290.43.

The recapitulation of the buildings follows:  
Primary School—Construction: New replacement value, \$14,473.88; depreciated value, \$10,981.71; insurable exclusions, \$430.10; insurable value, \$10,551.61. Equipment: New replacement value, \$1,441.65; depreciated value, \$1,111.24; insurable value, \$1,111.24.

Junior Elementary School—Construction: New replacement value, \$38,941.76; depreciated value, \$27,507.37; insurance exclusion, \$2,187.30; insurable value, \$25,064.09. Equipment: New replacement value, \$3,900.85; depreciated value, \$2,933.89; insurable value, \$2,933.89.

Elementary School—Construction: New replacement value, \$82,520.93; depreciated value, \$46,153.17; insurance exclusion, \$2,596.24; insurable value, \$43,556.93. Equipment: New replacement value, \$6,308.84; depreciated value, \$4,638.57; insurable value, \$4,638.57.

Bicycle shed: New replacement value, \$100; depreciated value, \$70; insurable value, \$70.

Construction: New replacement value, \$103,646.79; depreciated value, \$90,300.20; insurance exclusion, \$2,046.79; insurable value, \$88,253.41. Equipment: New replacement value, \$21,546.29; depreciated value, \$17,096.55; insurable value, \$17,096.55. Storage building: New replacement value, \$408.37; depreciated value, \$326.70; insurable value, \$326.70.

Captive lions, although not well muscled like those living in the wild state, develop more beautiful manes.

Presence of vitamins in fats was first demonstrated in 1909.

## 6 REFUSED TO HAVE

From Page 1, Column 7

ing concerned accused's refusal to have the national anthem sung at the conclusion of the Sunday services, as was requested by the stewards, and by the congregation. The other concerned statements stated to have been made by Mr. Dovey at a meeting of the stewards on Sunday, and also at subsequent dates.

In one of these statements made at a meeting of the stewards on December 12, the minister was alleged by two witnesses to have said that H. M. The King was a German. Mr. Sutherland, in his testimony, referred to statements alleged to have been made by the minister to Sunday School class. In these statements, the minister was alleged to have said that the class of the decade of the Russian royalty, mentioning the development there since their overthrow, mentioned their European royalty as in similar class, and then made slighting references to H. M. The King George.

J. A. Maddock, second witness in the morning session, spoke of differences of opinion on the subject of the national anthem. He and Mr. Sutherland stated that attempts were made to reach a compromise in this, but to no avail. Mr. Maddock said that on December 3, he and the choir, by arrangement, started the National Anthem. Later, a short conference was held with the minister, who then registered objection to the rendering of the piece, stating that it would spoil the service.

Both at this time and later he stated he considered it to be a sacrilege, and that he thought it would ruin the service, witness said. At the meeting of the trustees on December 12, he was stated to have used the words "imperialistic" and "flagwaving" in respect to the singing of the anthem. The trustees, when on the stand, said that the practice of singing the national anthem had been followed during the last war, and it was thought fitting it should be performed during the present conflict.

During the afternoon, evidence was brought out that a declaration of loyalty and oath of allegiance was placed before the accused. The evidence was that this was signed by the minister without demur. At the conclusion of the hearing Mr. McLelland committed the man for trial.

Down in the club lobby after the affair was over, a disgusted little voice piped up, "I had my turkey all at before I knewed it was turkey."—Cockle Bur.

### WINFIELD

Box J. Feltre took the United Church service at Winfield Sunday last at the changed hour of 3 o'clock in stead of 3.30 p.m., as formerly. He announced that no further service would be held until August 19th, as he would be taking a vacation of two weeks in August.

Mr. J. Feltre, of Enderby, motored down to the home of Mr. and Mrs. Wales on Saturday evening of last week. On his return, he was accompanied by Mrs. J. Feltre and family, who had spent the week visiting with Mrs. J. Feltre's parents, Mr. and Mrs. Wales.

Visitors to Winfield over the weekend included Pte. Wm. Cook, of the R.M.T., now stationed at Kamloops.

Miss Fowler is at present a patient in the Kelowna General Hospital.

Mr. and Mrs. Tom Duggan have as their guest Rex Fitz-Gerald, of East Kelowna.

Mr. and Mrs. Robert P. White have had as their guests during the past week Mrs. White's sister, Mrs. Tucker, and two daughters. They left on Monday to visit with the Ashmans, of Lavington. Their home is in Winnipeg.

On the return home of Mrs. M. Gay, of Seattle, she was accompanied as far as Penticton by her mother, Mrs. John Edmunds. Mrs. Edmunds spent a week at the home of Mr. and Mrs. F. O. McDonald.

Miss Elmore Lidstone, of North Enderby, is spending a week of her vacation with relatives here.

Miss Joyce Gunn is holidaying with friends at Falkland.

Alfred Williamson spent his weekend leave with relatives and friends at Winfield.

According to a police surgeon, a person is sober if he is able to say, "Susie sat in the soup." However, it leaves one wondering about Susie.

**THE CORPORATION OF THE CITY OF KELOWNA**

**TENDERS FOR POLES**

across the street from the L. D. Cafe

**NOW UNDER NEW MANAGEMENT**  
Relax and enjoy yourself; play billiards or snooker on our fast, lively tables.

**Soft Drinks and Ice Cream** 52-1c

### MARATHON ASPIRANTS IN ACTION

Last Thursday afternoon, an unusual event took place in Kelowna in connection with the Youth Day on behalf of the Gordon Campbell Prevention. This event was the Marathon walking race in which twelve ambitious walkers participated. On the left can be seen H. Klederscher, who won the men's section of the Marathon. In the centre are the two Zahara sisters, Dorothy and Margaret, first and second in the women's section, and on the right are two unsuccessful Marathoners, Jim Harvey and George Plintoff, striving with might and main to get there first.

Mr. and Mrs. J. N. Cushing, well-known Kelowna residents, are home again after a 7,000 mile motor trip which took them to nearly every large centre west of Winnipeg and to many cities in the United States. Crops on the prairies seem excellent, they report, and in Alberta the grain crops are the best in years.

Of immediate interest to this travelling couple was the Big Bend Highway, which they traversed on their return. The scenery from Calgary to Heveldeke was the finest on the entire trip, but Mr. Cushing commented that from Golden to Kelowna he could see no directional signs or advertising to direct the tourists to the Okanagan Valley.

Setting out from Kelowna on their trip east, the travellers motored via Grand Forks to Spokane, and to Butte, Montana, which is only a mile above sea level and has miles a mile down into the bowels of the earth. Then they went through northeast Wyoming to South Dakota.

In South Dakota is Mt. Rushmore National Memorial, one of the most colossal pieces of sculpture ever attempted by man. This memorial is being built to commemorate the conception, construction, preservation and growth of the American Republic, out of the enduring granite of Mt. Rushmore. Stupendous busts of Washington, Jefferson, Theodore Roosevelt and Abraham Lincoln are being cut under the direction of Gutzon Borglum, noted sculptor. When completed, each bust will measure 230 feet from waist to brow, the scale being for a man 48 feet tall. Geologists say these colossal statues will remain for many thousands of years.

Iowa and Illinois are flat uninteresting states, they found, and they journeyed east, crossing the international boundary at Windsor. They drove to Leamington, Ont., home of the Hick peckles, and on to Aylmer, large canning centre, and St. Catharines. The large Welland ship canal is near St. Catharines.

A day was also spent at Niagara Falls and another at Rochester, N.Y., home of the Kodak company. They visited Toronto, Montreal and Sherbrooke. Que. A week was spent at Contook, Quebec, eastern township, where there are many large cotton, rayon and other manufacturing plants.

Practically every plant and large construction in eastern Canada is under heavy guard, they indicate.

On the return trip they came by the all-Canadian route, with the exception of the section by Lake Superior. Through the personal efforts of Hon. Grothe Stirling, M.P. for Yale, they were able to obtain passports without delay for the short trip from Sault Ste. Marie to Winnipeg.

**REDUCTION IN ASSESSMENT AT RUTLAND**

Mrs. A. Eutin is Re-elected at Annual Meeting of Rutland School District — Principal Campbell is Praised

The annual meeting of the ratepayers of the Rutland School District was held in the principal's classroom at the new school on Wednesday evening, July 17. The attendance was not as large as usual, and there was little beyond routine business attended to. Election of a trustee resulted in the re-election of Mrs. A. Eutin for a three-year term, by acclamation.

Estimates for the ensuing year total \$9,200.25, but due to a surplus in hand, the actual amount to be assessed will be only \$7,800.00, a reduction of \$600.00 from last year. Provision was made for increasing the principal's salary by \$100 per year.

The report of Inspector DeLong was particularly complimentary of the work of Principal D. H. Campbell. Some discussion as to the possibility of introducing instruction in manual arts and home economics took place, but no decision was reached. The meeting adjourned at an early hour.

Reading of the minutes by Trustee Ritchie. Trustee C. Montgomery acted as chairman of the meeting.

Gray and Assistant Scoutmaster Dennis Reid. Twenty-one Scouts went into camp and were divided into three patrols, the "Seals," under P.L. Dick Reith; the "Beavers," under Second Harry Smith, and the "Foxes," under Second J. Ansell and J. Kitaura. A heavy thunderstorm on Saturday failed to dampen their spirits, most of the troop of which were in a swim during the camp, under Scoutmaster A. W.

Mr. and Mrs. J. W. Mutrie, of Ottawa, spent the week-end in Kelowna en route to California.

Miss Grace Watson, of Moose Jaw, was a week-end visitor in Kelowna.

Mr. and Mrs. L. Dore have as their house guest their daughter, Mrs. Bert Vowles, of Powell River. Mr. Vowles will arrive on Sunday to spend a two weeks holiday here.

Mr. and Mrs. Norman DeHart have returned from a holiday spent fishing at Little River.

Helen Heather Stewart.

**SENIOR MATRICULATION**  
Kelowna High School

Recommended in all subjects—Giro Yamamoto.

### TRAVEL 7,000 MILES BY AUTO ACROSS CANADA

Mr. and Mrs. J. N. Cushing Return to Kelowna after Eventful Trip to Eastern Canada and United States

Mr. and Mrs. J. N. Cushing, well-known Kelowna residents, are home again after a 7,000 mile motor trip which took them to nearly every large centre west of Winnipeg and to many cities in the United States. Crops on the prairies seem excellent, they report, and in Alberta the grain crops are the best in years.

Of immediate interest to this travelling couple was the Big Bend Highway, which they traversed on their return. The scenery from Calgary to Heveldeke was the finest on the entire trip, but Mr. Cushing commented that from Golden to Kelowna he could see no directional signs or advertising to direct the tourists to the Okanagan Valley.

Setting out from Kelowna on their trip east, the travellers motored via Grand Forks to Spokane, and to Butte, Montana, which is only a mile above sea level and has miles a mile down into the bowels of the earth. Then they went through northeast Wyoming to South Dakota.

In South Dakota is Mt. Rushmore National Memorial, one of the most colossal pieces of sculpture ever attempted by man. This memorial is being built to commemorate the conception, construction, preservation and growth of the American Republic, out of the enduring granite of Mt. Rushmore. Stupendous busts of Washington, Jefferson, Theodore Roosevelt and Abraham Lincoln are being cut under the direction of Gutzon Borglum, noted sculptor. When completed, each bust will measure 230 feet from waist to brow, the scale being for a man 48 feet tall. Geologists say these colossal statues will remain for many thousands of years.

Iowa and Illinois are flat uninteresting states, they found, and they journeyed east, crossing the international boundary at Windsor. They drove to Leamington, Ont., home of the Hick peckles, and on to Aylmer, large canning centre, and St. Catharines. The large Welland ship canal is near St. Catharines.

A day was also spent at Niagara Falls and another at Rochester, N.Y., home of the Kodak company. They visited Toronto, Montreal and Sherbrooke. Que. A week was spent at Contook, Quebec, eastern township, where there are many large cotton, rayon and other manufacturing plants.

Practically every plant and large construction in eastern Canada is under heavy guard, they indicate.

On the return trip they came by the all-Canadian route, with the exception of the section by Lake Superior. Through the personal efforts of Hon. Grothe Stirling, M.P. for Yale, they were able to obtain passports without delay for the short trip from Sault Ste. Marie to Winnipeg.

**REDUCTION IN ASSESSMENT AT RUTLAND**

Mrs. A. Eutin is Re-elected at Annual Meeting of Rutland School District — Principal Campbell is Praised

The annual meeting of the ratepayers of the Rutland School District was held in the principal's classroom at the new school on Wednesday evening, July 17. The attendance was not as large as usual, and there was little beyond routine business attended to. Election of a trustee resulted in the re-election of Mrs. A. Eutin for a three-year term, by acclamation.

Estimates for the ensuing year total \$9,200.25, but due to a surplus in hand, the actual amount to be assessed will be only \$7,800.00, a reduction of \$600.00 from last year. Provision was made for increasing the principal's salary by \$100 per year.

The report of Inspector DeLong was particularly complimentary of the work of Principal D. H. Campbell. Some discussion as to the possibility of introducing instruction in manual arts and home economics took place, but no decision was reached. The meeting adjourned at an early hour.

Reading of the minutes by Trustee Ritchie. Trustee C. Montgomery acted as chairman of the meeting.

Gray and Assistant Scoutmaster Dennis Reid. Twenty-one Scouts went into camp and were divided into three patrols, the "Seals," under P.L. Dick Reith; the "Beavers," under Second Harry Smith, and the "Foxes," under Second J. Ansell and J. Kitaura. A heavy thunderstorm on Saturday failed to dampen their spirits, most of the troop of which were in a swim during the camp, under Scoutmaster A. W.

Mr. and Mrs. J. W. Mutrie, of Ottawa, spent the week-end in Kelowna en route to California.

Miss Grace Watson, of Moose Jaw, was a week-end visitor in Kelowna.

Mr. and Mrs. L. Dore have as their house guest their daughter, Mrs. Bert Vowles, of Powell River. Mr. Vowles will arrive on Sunday to spend a two weeks holiday here.

Mr. and Mrs. Norman DeHart have returned from a holiday spent fishing at Little River.

Helen Heather Stewart.

**SENIOR MATRICULATION**  
Kelowna High School

Recommended in all subjects—Giro Yamamoto.

Passed—John Ormonde Atkins, Dorothy E. Bostock, Robert Samuel Burks, Jean Elizabeth Cather, Charles James Clement, Donald Bruce Deans, Phyllis Audrey Dilworth, Beatrice Mabel Fisher, Kenneth Alan Francis, Kathleen Helen Henderson, Rosy Sumiko Ibaraki, Nancy Elizabeth Johns, Moto Kawahara, Shega Kawahara, Frederick Lewis Marshall, Catherine Marshall, Catherine Jane MacDonald, Ronald James Hugh MacClymont, Fay Christine Oliver, Evelyn Mae Ort, John Alexander Perry, Raymond Wilbur Pettigrew, Grace Eileen Pound, John William Povich, Dorothy Helen Smith, William Russell Stephens, John Douglas Stone, Dorothy Amelia Tasker, Geoffrey Howard Tozer, William Murray Tree, Robert Grant Williams, John Dominic Wyrzykowski, Ichiro Yamamoto, Edward Yoshioka.

Names of Yvonne Anderson and Douglas Little were omitted from the pass lists in coast papers but they have been notified of their success in passing their exams.

## Peachland W. I. Responds to Plea for Fruit Conservation

Deputy Agriculture Minister and W.I. Superintendent Ask Members to Preserve Ten Extra Jars for Canada's War Effort

Peachland Women's Institute responded enthusiastically to the appeal for extra conservation of fruit and vegetables voiced in a bulletin from Deputy Minister of Agriculture J. B. Munro, and 150 jars of fruit were promised at their meeting on Tuesday evening, July 16, in the Municipal Hall. In the bulletin, Mrs. MacLachlan, superintendent of Women's Institutes, also suggested that a "War Chest" might be set up to be filled with preserved fruit, made-over clothing, and warm bedding, which could be called upon when needed.

Mr. Munro's message stated: "The women of British Columbia have an opportunity of performing service which will benefit Canada and humanity for the next twelve months. The small fruit season is now reaching its peak, and it is not only the duty but the privilege of women to harvest and conserve the surplus of the season so that they may be available for consumption later on. Present indications are that canned fruits and vegetables will be in demand in Canada and in other countries. The individual woman through the length and breadth of this province can accomplish much in preserving not only fruits grown for commercial plantations, but the local fruits which, through the bounty of Nature, are available in many rural areas."

Mrs. MacLachlan wrote to suggest that, in view of the amount of additional food can be conserved if every woman, when canning in the home, will preserve a few additional jars at each cooking as her way, the cost to the individual will be small, but the contribution to humanity in the coming winter may be worth many war bonds. If the members of each individual Institute get together and make their own plans, much may be accomplished at small expense of either money or labor.

"Every Institute might set up a 'War Chest' filled with preserved food made-over clothing and warm bedding, keeping an itemized list of the contents, then, when the call comes, as it is bound to come, sooner or later, the B.C. Women's Institutes will be ready with a vast quantity of stores ready for immediate use. It is impossible to send supplies to Europe at present—however desperate the need. Canada cannot send aid and comfort to peoples in enemy territory, and at present every inch of shipping space to England must be devoted to munitions. When victory comes to our arms, many sections of the Empire will need the bare necessities of life. There are over 5,000 members of the B.C. Women's Institutes. If every woman pledges herself to make and set aside ten jars of food during the season, there will be 50,000 ready for use, all made without any drain on the country."

All fifteen members of the Institute present at this special meeting pledged themselves to put aside the ten jars of fruit, while Mrs. W. G. Renfrew offered peaches and Mrs. W. D. Miller offered to can extra fruit, if cans and fruit were provided.

Unanimous support was given to the suggestion made to purchase war bonds with the \$52 in the savings bank belonging to the library fund of the Peachland Women's Institute. These bonds will be in the name of the secretary, Mrs. C. T. Redstone. As a contribution to the Red Cross work, it was decided to take over the making of the quilts for the Red Cross, and Mrs. H. E. Trimble was appointed convener of this work. A quilt piece and made by Mrs. J. Lingo and Mrs. Trimble for the W.I. was presented to the Red Cross by the President, Mrs. F. Haker, and acknowledgment was made by Mrs. A. Small, convener of the War Room Committee of the Red Cross. Mrs. Haker was the unanimous choice of the meeting as delegate to the Provincial Convention to be held at Vancouver on August 28, 29 and 30.

### Show Royal Visit Films

Plans were made for showing the official films of the royal visit to Canada, on July 31, at a special meeting of the Executive of the Red Cross Society, held Thursday evening in the Municipal Hall. Tickets will be on sale for this picture, which will be shown in the Legion Hall, and a good crowd is expected.

## D. A. MIDDLEMASS NEW TRUSTEE ON MISSION BOARD

Replaces J. H. Horn at Annual Meeting of School Trustees Budget to be Same as Last Year to Take Care of Contingencies

Twenty-three persons were present at the annual school meeting, held on Wednesday, July 17, at 7:30 p.m., with W. D. Walker in the chair. The meeting opened with nominations for a trustee to take the place of J. H. Horn, whose term of office expired this year. D. A. Middlemass was chosen unanimously, and he will also assume the duties of secretary for the ensuing year. D. Currell was chosen as auditor. In the secretary's report for the past year, Mr. Middlemass stated that the senior room had included five grades, the junior room three, and the work had proved satisfactory. He said the School Board was well pleased with the water system installed and the work of the junior had given satisfaction.

The balance sheet for the past year was adopted, and the secretary put the proposed budget for this September, it will be necessary to build another room, which would include Grades 9 and 10, but the secretary pointed out that he could not ascertain the number of pupils yet and that, if many children arrived here from England, there would be a special meeting called to discuss the possibility of hiring a schoolroom for the duration.

The budget, which included accident insurance due this year and \$650 for High School students (an increase over last year) was, on the whole, \$300 less than last year. However, a resolution was passed to have the same estimate as last year, \$3,200, and to let the Trustees decide what to do with the surplus. A suggestion was made that \$200 be put aside for painting the school. The secretary favored that the money be spent on the grounds, and Mrs. H. E. Collett advocated improvements to the cottage and that it should be left to the discretion of the Board to investigate the cottage and see what could be done.

D. A. Middlemass pointed out that the secretary should write to the Assessor and request that the Community Hall be exempt from school taxes in the coming year, and a motion was passed to that effect.

Peter Mallam and Alfred Johns left on Friday morning for Vancouver to join the Irish Fusiliers. Miss Mary Stubbs left on Friday morning for Kootenay, where she is competing in the Western Canadian Lawn Tennis Championships this week.

Misses Kathleen Sealy, Daphne Bell, Marjorie Thomson, Betty Davis and Ena Horn went to the Guide camp at Gibson's Landing last week.

Mr. and Mrs. Harold Willett are in C. Dunlop's house for a few weeks.

Miss Joan Willett, daughter of Mr. and Mrs. Victor Willett, is now residing in the Mission.

Mrs. Archer-Houlton, accompanied by her sister, Mrs. Bullock, and her daughter, Miss Lorna Archer-Houlton, is spending three weeks' holiday at Radium.

Mr. and Mrs. W. D. Hay, accompanied by Miss Joyce Ford, are staying at their summer camp for a few weeks.

Jack Bell took part in the Youth Day walking marathon last Thursday, and completed the five-mile course.

Tom Scott motored from Vancouver last week, and is spending three weeks at the home of his mother, Mrs. G. B. Ford.

Mrs. J. H. Thompson and her daughter Pamela left on Wednesday of last week for Vancouver, and from the Coast they plan to take a motor trip to Minnesota, where Mrs. Thompson will visit her brother, Mr. Winter, who resides in Minneapolis, and whom she has not seen for twenty-two years.

Mr. and Mrs. W. J. D. Walker, of Prince George, arrived in the Mission on Tuesday of last week, and spent a week at the home of Mr. and Mrs. W. D. Walker.

The Sunday School picnic of the United Church, held on Wednesday afternoon, July 17, at Deep Creek, was a most enjoyable occasion. Swimming and racing occupied the attention of the youngsters, while the adults enjoyed the pleasant outing along the beach and the picnic supper.

Two weddings of much local interest took place at Pentiction early last week. On Sunday, July 14, Miss Dorothy Cotton, R.N., Victorian Order nurse for the Peachland district, was quietly married to Greville Harrison, of Rutland, former principal of the Elementary School here. The ceremony was performed at St. Saviour's Church by Rev. W. S. Beames.

On Monday evening, July 15, at St. Saviour's Church, Rev. Mr. Beames again officiated when Greville Harrison, son of Mr. and Mrs. Charles Bain, of Peachland, was united in marriage to Archibald Miller, a native son and eldest son of Mr. and Mrs. W. D. Miller, pioneer residents of Peachland. Following the ceremony, Mr. and Mrs. Miller returned to Hedley, where he has been employed, but will shortly take up their residence here at Trepanier.

Miss Donna McLeod, of Calgary, is a guest at the home of her sister and brother-in-law, Mr. and Mrs. Frank Kinchin, at Trepanier.

## GLENMORE PICNIC POORLY ATTENDED BECAUSE OF RAIN

Red Cross Workers Speed up Production Through Loan of Button-Hole Machine

The Glenmore picnic at the Kelowna Park, under the auspices of the B.C.F.G.A. Local, on Tuesday of last week, was poorly attended owing to the showers which continued almost all afternoon.

Mr. and Mrs. Jack Snowdon and party, consisting of Mr. and Mrs. Percy Green, George Reed, Jr., and Phil Mowbray, who travelled over the Big Bend Highway to Banff last week, returned on Friday night. They report the road in good shape, the Big Bend being oiled almost all the way.

Mrs. E. A. Callus is still a patient in the hospital but is improving and is allowed to see visitors.

Mrs. D. Ward, Jack and Harry, accompanied by Mr. Tom Curry, returned on Wednesday of last week, after an enjoyable trip over the Big Bend Highway to Calgary, where they took in the stampede, then to Edmonton, and south through Jasper Park to Radium Hot Springs and the Kootenays, and home by Trail and McCulloch. They report the worst part of the road travelled, was between Steamboat and Revelstoke. The Big Bend road was in good shape, but had since been cut up by heavy traffic, they state.

Red Cross work was greatly speeded up last week, by the use of a button-holing attachment, which Mrs. Andrew Ritchie had kindly loaned for use at the meetings, whereby button holes can be finished in a few minutes, and several hours' work eliminated. Two quilts as well as several small suits, dresses and other garments have been completed and turned in during the last three weeks. New material has been handed in as well as boxes of good material suitable for making over, but there is still urgent need for more in the line of woollens to make up for winter use.

H. T. Kennedy, of Edmonton, C.N.R. Traffic Supervisor, who is in Kelowna on business, spent Sunday at the home of Mr. and Mrs. H. J. Harden.

The tap, tap, of box making is again heard in all directions, in preparation for the coming crop, which is reported to be a good one. Although the hail storm on Saturday did quite an amount of damage in some sections, there is little sign of damage here.

Mr. G. W. H. Reed returned on Tuesday, after spending several days at Shaughnessy Hospital, Vancouver.

### THIRD FILM RELEASED

Hon. Jas. A. McKinnon, Chairman of the National Film Board, announced today that "The Home Front," third in the series of war films, was released to theatres on June 27. In this picture, all the forms of activity of women on the home front are to be shown in ten minutes of fast moving film.

## PASSENGERS UNINJURED IN 30-FOOT FALL

East Kelowna Persons Miraculously Escape Death When McCulloch Road Gives Way

Three persons miraculously escaped injury when a car driven by F. Pincus went off the McCulloch road about eight o'clock on Sunday night. Mr. Pincus, accompanied by Mr. and Mrs. J. Smith, East Kelowna, was returning from a fishing trip at Cariboo Lake when he met another car about one mile from McCulloch. When the car turned out to let the other car pass, the road crumbled away and his car plunged over the bank, turned over twice, and finally stopped right side up about thirty feet below the road. None of the occupants of the car was injured, and beyond a few dents and a small hole in the gas tank the car was undamaged.

A hail storm which struck the lower bench at East Kelowna on Saturday did considerable damage to the apple crop. Although the storm was heavy on the lower bench, lasting about ten minutes, it missed the Keloka Orchards entirely and apparently did little damage on the top bench.

Miss Pamela Dyson is spending a few weeks' holiday with relatives in Victoria.

Miss Dorothy Daniel, daughter of Mr. and Mrs. H. W. Daniel, of New Westminster, was the guest of Mrs. G. Fitz-Gerald last week. Mr. Daniel was former principal of the East Kelowna school.

Miss Barbara Ferguson left last week for Vancouver.

Mr. and Mrs. C. S. Davis, of Prince Albert, Saskatchewan, and

## VANCOUVER, AUG. 26-SEPT. 2

## STAT-OWNED PLANTS NOT FAVORED

The policy of the Government in setting up state-owned plants for war purposes was explained by Hon. C. D. Howe, Minister of Munitions and Supply, in the House of Commons July 17th. He said: "Where a private time operation can be carried out in the best interests of the war effort, it is the policy of the Government to leave it to the private industry. For the purpose of the war, rather than short a war production, government intervention is only justified where it is in the same purpose."

Efficiently carried out, war time work we believe it is in the best interests of the war effort to leave it to the private industry. For the purpose of the war, rather than short a war production, government intervention is only justified where it is in the same purpose."

## ANNUAL OYAMA SPORTS DANCE WELL ATTENDED

Local Residents and Outside Visitors Swell Numbers at Yearly Function by Oyama Community Club

Oyama's annual sports dance was held at the Oyama Community Hall on July 18, and it was well attended both by local residents and outsiders. Sponsored by the Oyama Community Club, the dance was another in a long line of successes achieved by the Club in the dances which have been held during the last few months. Roy Enderby's Orchestra provided the music.

Mrs. Perigun Darling, of Narameta, with her two children, John and Anne, has been staying with Mr. and Mrs. J. C. Craig.

Friends of Bill Gouding will be glad to know that he has been accepted by the I.C.A.F. and has gone to Toronto to begin his training.

Miss Wilma Clement, of Winfield, spent a few days at the home of Mr. and Mrs. T. D. Shaw-MacLaren last week.

Tom Hebert, David Darvill and Bob Enderby spent a few days camping on the hills last week.

## All Interior Fruit Areas Need More Moisture Badly

Ground Crops Specially Need Benefit of Rain—Potatoes Still in Keen Demand—Spraying for Codling Moth is General Here

Despite the old shower which has fallen in the last week, the fruit and vegetable areas of the Interior need more moisture and ground crops especially have been suffering from lack of it. Spraying for second brood codling moth is general in the Kelowna area this week. Following is the complete report issued by the Horticultural Branch of the Department of Agriculture, Vernon:

Salmon Arm, Sorrento and Main Line Points

As reported July 17th: Very hot, dry conditions prevailed up to last week-end, since when local thunderstorms and showers have cooled things off somewhat, but little rain has fallen and there is sorely needed by all ground crops. On light soils, and in some locations, even on bottom lands, such crops as grains, roots, alfalfa, etc., have suffered from the heat and moisture shortage during the past two or three weeks, and the yields of these crops will be curtailed. Irrigation supplies in most of the western sections of the district remain satisfactory so far.

To date, tree fruits do not appear to be affected by the dry conditions, and apples, pears, etc., continue to make satisfactory growth. In some orchards some apple scab is showing up, but it is not likely to materially affect the total tonnage. The prevalence of scab in these instances is usually traceable to lack of thoroughness in spraying or untimeliness of applications, or both. Crimson Beauty and Yellow Transparent apples are moving from Salmon Arm, also Wealthies as green cookers moving from Kamloops. Apples are still going out from Salmon Arm and continue to be of fine quality.

The raspberry crop is turning out better than was expected and has been helped by the showers and cooler conditions of the past few days, and should be moving for two weeks yet. Loganberries are also coming in, and the quality is good.

Early potatoes are all in at Kamloops and some Nette Gems are being dug to fill orders. Fall seed onions are cleaned up. Tomatoes are coming along well and will be in volume next week. Early cabbage is cleaned up. There is a good movement of mixed vegetables from Kamloops.

Armstrong, Vernon, Oyama, Okanagan Centre, Winfield

As reported July 18th: Since our last report, the district has experienced a period of intense heat. This was broken on the 12th by a series of severe electrical storms and odd showers. Although still hot, the weather has been slightly tempered during the last few days. Although heavy thunder showers hit isolated areas, there has not been sufficient general precipitation to be of any value.

In the orchards all fruits are sizing satisfactorily, with apricots about cleaned up and a few of the very early peaches being harvested for local consumption. Peachesters should start moving from the earlier blocks in a week to ten days, and will not be long before being ready for harvest. Yellow Transparent apples are moving freely and the Duchess should be moving at any time now.

In vegetable crops, the movement is slowing up somewhat in some commodities, but potatoes are still apparently in keen demand. Early crops are practically cleaned and digging is being made of the later varieties. The hot weather crops, such as field tomatoes and peppers, are now moving in, and in general the appearance and quality are very good. In general field crops, the harvest of grains and field peas is now in full swing, and, although fall wheat is showing excellent yields in most cases, the field pea crop and the spring grains are going to be on the light side. The intense heat and moisture shortage during the late blossoming and early filling is the cause, through creating considerable tip blast. Second crop alfalfa is now in the stack and yields in unirrigated sections are quite disappointing.

The alfalfa seed crop is also showing very spotty, the set in some fields being fairly good and in others quite light. Threshing is now under way, and this is one of the earliest seasons for this operation for many years.

## REVELSTOKE FAILS TO APPEAR FOR BALL GAME

Northerners Default Game Without Even Bothering to Let Local Team Know

Revelstoke's ball club failed to put in an appearance at the Kelowna Park on Sunday for the scheduled Interior Baseball League game and, as a consequence, defaulted to the Kelowna team. Revelstoke did not even show enough interest in the game here to notify the Orchard City club that its team did not intend to make the trip.

Consequently, the local officials expected Revelstoke right up to time of the game. A collection was taken at the gate and then, when no opposing team showed up, the money obtained was offered back to the patrons. Some of the crowd did take their money back.

Next Sunday, the Kelowna team travels to Kamloops for its second last contest away from home before the playoffs commence. Kamloops will come here the following Sunday, August 4. The Kelowna club would greatly appreciate some volunteers who would drive to Kamloops next Sunday.

Revelstoke has won but one game, and that against Kamloops, and will probably drop out for the rest of the season.

## AQUATIC RIPPLES

Everyone is getting excited about the Regatta these days, and time they did, for it is only two weeks away. Aquatic directors and others interested may be seen wearing ribbons advertising the Regatta on August 1 and 2. Some enthusiastic hards are also going the rounds of the business houses, stamping envelopes with Regatta advertising.

The Ladies Auxiliary has also completed plans for the establishment of a canteen, or public day nursery, at the Aquatic or in the Park this Regatta. This should prove a great boon for mothers who do not wish to leave their children at home and yet would like to place them under proper care at the Park. A qualified, practical nurse has offered her services for the two days, it is understood.

Last night, the Ogopogo Swim Club was responsible for arranging the Wednesday night dance, and it was quite a success. The Ladies Auxiliary to the Aquatic is responsible for the July 31 dance and intends to operate it on the Spinster's Ball idea.

Allan Fuller has been employed at the Aquatic until Regatta time, performing odd jobs and assisting with the Regatta. The diving stand has been moved out about six feet, because the sand has been filling in close to the beach. Some of the divers were hitting bottom.

Nels Stacey writes from Vancouver that the VRC will be sending a representation to the Kelowna "Win the War" Regatta, probably seven strong. Jim Pantone is to be in Vancouver today and will probably

leaf hoppers and the codling moth are at present the most prevalent pests with which growers have to contend. The summer brood flight of the codling moth is now well under way, and spraying for the control of this brood should be carried out over the coming two weeks. The grasshopper menace, which was expected to be troublesome early in the season, has apparently faded out through natural causes, and today there are very few leaf hoppers to be found excepting small isolated groups.

Kelowna As reported July 18th: The weather continues dry and nearly all vegetable and farm crops would benefit from a good rain.

Fruit continues to size well and indications are that all varieties of fruit will mature earlier than usual. Every day second brood codling moth activity increases. Spraying will be general next week. Owing to the earliness of second brood worms, many growers contemplate the use of two cover sprays on this brood to give protection between now and harvest.

The raspberry harvest is just past its peak. The yield, size and quality were good. Semi-ripe tomatoes are increasing in quantity daily.

Westbank, Peachland, Narameta, Summerland As reported July 17th: Over the past two weeks the weather has been extremely hot and very dry. The thunderstorm which passed over yesterday did not bring the expected rain, and what little there was did not stop apricot picking.

Many orchards are beginning to show the effects of the continued hot, dry spell, while others are doing very well. Thinning work on the apples is about over. Yellow Transparent picking is over, and Duchess will move out as green apples as per order only. The apricot harvest will be over in about another week. A few early peaches are coming in, but movement will not commence much before the end of the month. Peach plums will be ready by the 20th. Codling moth second brood spray will commence the first of next week. Orchards look fairly free from this pest at the present.

## REGISTRATION PLANS NOW NEAR COMPLETION

Every Canadian Over Sixteen Must Register—Severe Penalties for Failure

Plans for the registration of all Canadians having reached the age of 16 years have been made known by Hon. James G. Gardiner, Minister of National War Services, in the House of Commons. Necessary organization has been created. It is hoped that registration will be completed by the end of August.

Members of Parliament have nominated registrars and deputy registrars in their constituencies, and they in turn will appoint deputy registrars in all polling subdivisions. The deputy registrars will post notices of registration as soon as the dates are fixed and will secure registration booths.

All persons are required to attend registration booths on the given dates, to answer questions (18 for men, 19 for women) put to them by the deputy registrars. Answers will be written on registration cards. In cases where a person is ill or incapacitated, the deputy registrar may send an assistant to complete the registration at that person's home.

If a person fails to register, he or she will be punished by a fine of \$200 or imprisonment for three months or both, with an additional penalty of \$10 a day for each day clapping between the close of registration and the person's registration or trial.

A fine of \$100 is provided for refusal to answer any registration question; a fine of \$200 or three months' imprisonment or both for giving misleading answers; and a fine of \$200 and imprisonment for anyone advising any citizen to refuse or omit to comply with the regulations or impeding any officer in carrying out the regulations.

All persons will be given registration certificates, which they will have to carry with them at all times. Penalties are provided for refusal or failure to produce certificates on demand. Other penalties are provided by the Registration Act for the protection of both the State and the people.

In the words of Hon. James G. Gardiner, registration of all the people of Canada will serve two purposes. "The first one being to get a complete picture of the conditions existing with respect to man-power and woman-power in Canada today, with regard to where they are, their background and their condition of health. All information of that kind would be required, and it will be made available not only to the Department of National Defence, but to all departments of government—old age pensions, health, and so on. This information can be used for different purposes in connection with the care of our population during a period of war, and perhaps afterwards.

The other purpose is the one which has been outlined, namely that of obtaining registration of those who are available for training in Canada immediately and throughout the war period."

Indications are that voluntary or do some valuable contact work while at the coast...

## KOOTENAYS LEAD IN CAR SALES

Trail and Nelson Lead Interior Points in Automobile Sales for Two Months Ending June 30, 1942

Trail topped the list with 127 cars registered while Nelson was second with 118. Princeton was third with 86, while Vernon was close behind with 81. Then came Kamloops with 74 and Kelowna was next with 65. Princeton had 50 cars registered.

Registrations will be set up in each constituency, in addition to officials appointed by the government, to help carry out the task of registration. Registrars and Members of Parliament have been deluged with offers of voluntary aid.

The questions to be answered appear in another column of this issue.

## KELOWNA ACES DISSIPATE NICE FOUR-GOAL LEAD

Armstrong Remains in Second Place in Boxla Loop with 17-12 Victory Here—Game Ends in Free-for-All

After establishing a comfortable 5-1 lead in the first quarter of play, Kelowna Aces saw their advantage dissipate into thin air and the second-place Armstrong squad go into the lead for the first time in the 17-12 victory at the Kelowna lacrosse box last Friday evening.

For the first fifteen minutes the Aces clicked perfectly and had almost complete command of the game. Then they wavered, their defence went to pieces and they hit the toboggan. They did not seem like the same team after that first period.

Tempers flared in the dying moments of the game when one of the worst free-for-alls of the season occurred with just over a minute left to play. Henderson, of Armstrong, brought his cross down with full force over Sonny Handlen's cranium. That was the signal for players, officials and many spectators as could get into the box to swarm on to the playing surface and join in the tussle.

Les Handlen dropped stick and gloves and waded into his brother's attacker. Players who had pet grudges sought each other out and exchanged blows or grappled with each other. It was fully five minutes before order could be restored. There were no casualties as a result of the fray, as far as could be seen from outward appearances.

In the first period, the Aces were passing the ball around in masterful manner, scoring five goals for fifteen shots. Armstrong had twelve shots but could only collect a single goal. O'Brien counted two of these goals, while Mills, Hodgson and Sonny Handlen contributed one each.

But Armstrong collected its wandering offensive and knitted it together by the time the second period came around, with the result that the visitors outscored the Aces 5-2 to trail by only one goal, 7-6, at the intermission.

In the third period, Kelowna held the visitors for a time, but Fisher worked in well with Sheard and while Parks, Polichuk and Maundrell threatened continually and Armstrong was out ahead 12-9 with the final period to go.

For a time in the last fifteen minutes it looked as if Kelowna would do the impossible, but the comeback wilted. With Kelowna hopelessly licked, tempers flared and the night ensued, the score standing at 16-12. When the smoke cleared and the game resumed for the final minute, Fisher obtained his final counter to end a big evening.

Hodgson was the only effective worker on the entire Kelowna team for the final half. The other lads seemed to lack the zip to keep going and they were dead on their feet. One of the worst offences committed by the Kelowna squad on Friday night was the method in which they received their passes. Instead of meeting the ball on the run, they sat back on their heels and waited, with the result that Armstrong intercepted time and again.

Sheard, who has played a lot of good lacrosse at the Coast, and Frank Fisher were outstanding for the Armstrong squad. The visitors brought down only three spares but they had their first-string line intact. Kelowna Aces have lost Maxwell, who has been transferred to Grand Forks, and Jim Tostenson, who has joined the C.A.S.F. Ken Griffith was unable to play last Friday, as he had a rib cracked in the encounter against Kamloops the week before.

Charlie Pettman was the Kelowna man with the whistle, while Bill Bistup was called upon to operate with him. Pettman stated after the game that he was through, as the abuse handed out by players and spectators alike is not worth the trouble, in his opinion.

Following is the scoring analysis, minus the penalties meted out in the final minute. They were so numerous and the two teams so mixed up that they could not be recorded.

**His Favorite Place**  
One summer evening, when Thomas A. Edison returned home from his work, his wife said, "You have worked long enough without a rest, you must go on a vacation."

"But where will I go?" he asked. "Decide the place you would rather be than anywhere else on earth, and go there," was the answer.

"Very well," promised Mr. Edison, "I will go tomorrow."

The next morning he returned to his laboratory.

## Here are Questions You Answer in Registration

THE National War Services Department has made public the questionnaire for national registration to be answered by all Canadian residents. It contains 18 questions to be answered by men. Women must answer the first 15 questions directed to the men and an additional four special questions.

The joint 15 questions follow:

1. Surname, given names.
2. Permanent postal address of away from usual residence when filling card, give name of usual residence.
3. Age last birthday; date of birth.
4. Conjugal conditions: Single; married; widowed; divorced.
5. Of what dependents (if any) are you the sole support: (a) Father; (b) Mother; (c) Wife; (d) Number of children under 16 years; (e) Number of other dependents; (f) Do you contribute partial support to any one?
6. Country of birth of: (a) Yourself; place; (b) Your father; place; (c) Your mother; place.

### NATIONALITY AND EDUCATION

7. Nationality or country of allegiance: British subject (a) by birth? (b) by naturalization? (c) foreign citizen? (d) If naturalized, in what year? (e) In what place? (f) If not British subject, to what country do you owe allegiance? (g) If an immigrant, in what year did you enter Canada?
8. Racial origin.
9. Language or languages: (a) Do you speak English? (b) French? (c) What other language can you speak, read and write?
10. Education: (a) Primary only; (b) Primary and secondary; (c) Vocational training (business college, technical high school); (d) College or university degree?
11. Is your general health (a) Good? (b) Fair? (c) Bad?
12. If blind, deaf, dumb, crippled or otherwise physically disabled, state nature of disability; if permanently disabled, are you in receipt of a pension? in respect of war service? workmen's compensation? old age or blind? other?
13. Class of occupation: (a) Are you an employer of labor other than domestic? if so, state business; (b) Are you working on own account, but not employing labor? if so, state business; (c) Are you an employee? (1) Working at usual occupation; (2) Working at other than usual occupation; (3) Unemployed; (4) Others not working because pensioners, dependents, retired, independent means.

### EMPLOYMENT

14. Occupation or craft: (Answer giving years of experience) (a) Present occupation? (b) What is your regular occupation? (c) What other work can you do well? (d) If an employee, who is your present employer? Name; address; nature of business, where employed? (e) If experienced in a skilled industrial occupation or profession, describe specifically the type or types of work in which you are specially equipped by training or experience.
15. Unemployment: (a) How many weeks did you work in the past 12 months? (b) If out of work now, state number of weeks since last employed in any occupation other than work performed in return for direct relief; (c) Are you totally incapacitated for employment?

### FOR MEN ONLY

Following are questions to be answered by men only:

16. (a1) Were you brought up on a farm? (a2) Until what age? (b1) Have you worked on a farm? (b2) How long? (b3) In what province or country? (c1) Can you handle horses? (c2) Drive a tractor? (c3) Use farm machinery? (c4) Can you milk? (c5) Are you able to do other farm work?
17. Is there any particular occupation in which you would like to be specially trained?
18. Defence services: (1) Have you previously served in any naval, military or air forces? if so, state: (a) Forces of what country? (b) Approximate dates between which services performed; (c) unit; (d) Rank held. (2) If retired or discharged, give reasons therefor. (3) Have you been rejected for military service in the present war: (a) Why? (b) Where?

### FOR WOMEN ONLY

Following questions are to be answered by women only:

16. State length of experience (in years) if any in: (a) General farming? (b) Truck farming? (c) Fruit farming? (d) Poultry farming? (e) Dairy farming? (f) Business establishments?
17. Can you: (a) Handle horses? (b) Drive motor trucks? (c) Drive an automobile? (d) Drive a tractor? (e) Use farm machinery? (f) Milk cows? (g) Do plain cooking?
18. Indicate here any qualifications or practical experience which you possess, not already described.
19. Do your circumstances permit you to serve in the present national crisis, by changing your present occupation to some other for which you are qualified? (a) Where you can return home daily? (b) Away from home?

## BOXLA LOOP WILL COMMENCE PLAYOFFS SOON

Enlisting of Players in C.A.S.F. Causes Decision to Wind up Regular League Schedule as Soon as Possible

Decision to wind up the Interior Lacrosse League schedule as quickly as possible, because of the loss of players through enlisting in the active service forces, was reached at Vernon last Sunday afternoon, when representatives gathered of the various teams involved.

Only those teams who owe return matches will be required to travel, and these games must be concluded in eight days. R. F. Pinkson, President of the Kelowna Box Lacrosse Club, states Kelowna owes games to Armstrong and Kamloops, while Vernon owes a return game to Kelowna.

Vernon and Lumby will play off for the right to meet the second-place Armstrong team in the playoffs. Kelowna will go into the playoffs against the league-leading Kamloops squad for a two-out of three series.

Salmon Arm has already dropped out of the league race, having won only one game since the start of the season.

Kelowna has already been crippled, with Jim Tostenson having joined the C.A.S.F. and Maxwell being transferred to the Royal Bank branch at Grand Forks. Ken Griffith suffered a cracked rib in the match against Kamloops and is temporarily out of the play.

Curtailment of the box lacrosse league schedule will go hard with the local club, as considerable expenditure was entailed at the start of the season, based on a definite number of games to be played. However, the boxla group has paid off a good deal of its indebtedness and, if good support is forthcoming for the playoff contests, then all current expenditures and a good proportion of the capital outlay could be wiped out.

## ONE RELIEF RECIPIENT IN GLENMORE

Adjoining Municipality Feels Proud of This Record—Would Stop Shipment of Ore to Japan

Glenmore's relief papers show that only one employable person needed relief in July. It is suggested that this probably constitutes a record, even in war time.

At the Council meeting at which this statement was submitted, it was decided that a resolution be forwarded to the Union of B.C. Municipalities requesting that the shipment to Japan of all minerals essential to the manufacture of arms and munitions be stopped at once.

The Clerk is of interesting paragraphs from the minutes of the twenty-second annual meeting of the Municipal Officers' Association. Worth special mention was a resolution brought in by G. H. Dunn, Kelowna; F. L. Shaw, Victoria, and H. M. Davenport, Maple Ridge. Resolved, that the Union of B.C. Municipalities be requested to appoint a committee to act in conjunction with the Department of Municipal Affairs and the Executive of this Association, to consider the best method in the public interest of insuring that persons appointed to municipal administrative positions shall have had the necessary training to guarantee the high standard of efficiency required by the complexity of municipal activities.

Over half a million pounds of camphor is used in a year in motion picture film.

Out of 4164 automobiles stolen in London during a recent year, 4052 were subsequently recovered.

## Just Smell This PICOBAC!

One of the greatest favours which a man can do for you (if you are not already a Picobac smoker) is to introduce you to this mild, cool, sweet smoke. It means years of contented smoking ahead.

For Picobac is the pick of Canada's Burley crop, better than ever today through improved methods of culture. More Canadians smoke it regularly than any other pipe tobacco because of its rich, satisfying aroma, and because

"It DOES taste good in a pipe!"

"It gives me a great kick," says Mr. Picobac, "to see how much pleasure my friends get from taking my advice to try Picobac."

## For People Who Mean to Win!

In Styling, Principle and Performance this Parker Vacumatic is BEYOND COMPARE!

Far ahead in pen design and principle, like the Navy in fighting ships, the Parker Vacumatic is the one pen for keen and determined people.

Never before have inventive genius, scientific skill and styling carried a fountain pen to such dazzling heights. For this streamlined beauty holds nearly twice as much ink without increase in size.

Its TELEVISION barrel lets you see the ink level, so that it won't run dry without warning.

Its huge ink capacity is due to its "One-Hand" filler — a revolutionary invention that abolishes the rubber ink sac, lever filler, piston pump and other old-fashioned parts inside. Its exclusively styled barrel, in laminated Pearl and Jet, shimmers like the sea in moonlight.

Try its 14K Gold Point, smooth as oil, at any good pen counter, and look for the BLUE DIAMOND that means Guaranteed for Life.

The Parker Fountain Pen Co. Limited, Toronto, Ont.

Pens \$5 to \$13.75  
**Parker**  
VACUMATIC  
Pens marked with the Blue Diamond are guaranteed for the life of the owner against everything except loss or intentional damage subject only to a charge of 50¢ for postage, insurance and handling, provided complete pen is returned for service.

## The quick, easy way to make BETTER jams and jellies—use CERTO

3 out of 4 Jam and Jelly Champions use CERTO regularly

Mrs. N. S. McMillan of Rosalind, Alta. — Prizewinner at Camrose Exhibition, writes: "I always use Certo in my prize-winning jams and jellies. It is so quick and so sure."

## Why the CERTO Way is so Reliable—so Fast—so Economical

### SAVES TIME—SAVES MONEY

It's surprising how little time it takes to make jam and jelly with Certo. Here's why. You need give only a one-minute to two-minute full rolling boil for jam—a half-minute to a minute for jelly. As Mrs. W. Findlay, Prizewinner at LebrIDGE Exhibition says: "The time saved is a great advantage when one is busy."

### MORE JAM OR JELLY

Since so very little juice has time to boil away, you get up to half again more jam or jelly from an equal amount of fruit. Writes Mrs. Wm. Pollock, Prizewinner at Yorkton, Sask.: "They do not have to boil so long. Because of this I have more jam or jelly."

### FRESHER TASTE AND COLOUR

In this very short boil the fresh fruit taste and bright, natural colour are unchanged and unspoiled. As Mrs. A. H. Trevo, Prizewinner at Saskatoon Exhibition says: "Jams and jellies made with Certo are far superior in flavour and colour."

### NO GUESSWORK

With Certo you get easy-to-follow recipes free. Follow them exactly and results are sure. Mrs. Olive M. Wallace, Prizewinner at Sherbrooke Exhibition writes: "I use Certo for perfect results, in making all my prize-winning jam and jelly."

## Hither and Yon

Mr. and Mrs. C. E. Friend had as their house guests during the past week Mr. and Mrs. Roy Taylor, of Vancouver.

Mr. and Mrs. Charles Gaddes entertained in honor of their house guests, Mr. and Mrs. L. Gaddes, of Edgewater, prior to the Aquatic dance on Saturday evening.

Friends of Mr. Gordon D. Brown surprised him at his home at Bankhead on Sunday evening, the occasion being his birthday.

Miss Evelyn Osler, of Regina, spent several days in Kelowna last week en route to Vancouver Island.

Miss Mary Stubbs left last week for Vancouver, where she will participate in the Western Canadian Tennis Championships. She was accompanied by Miss Margaret Palmer, of Vernon.

Mr. and Mrs. John Matthews and son John left on Sunday by motor to spend a holiday at the Coast.

Mr. and Mrs. Frank Armstrong, of Palo Alto, Cal., left on Thursday last, after spending a two-weeks' vacation at the homes of Mrs. Silcock and Mrs. Swainson.

Mr. and Mrs. J. Douglas and son Dick left on Sunday to spend a holiday of two weeks at the Coast.

Mrs. Irene Parkinson left on Monday to spend a holiday at Edgewater as the guest of her daughter, Mrs. L. Gaddes.

Mrs. B. MacLaren has as her house guests her son, Colin MacLaren, of Vancouver, and Bill Boyce, also of Vancouver.

Mr. and Mrs. Cyril Mossop have returned from a motor trip of two weeks over the Big Bend Highway, including Banff, Lake Louise, Jasper, Waterton Lakes and the Kootenays.

Mr. and Mrs. J. B. Mannering, of Toronto, were visitors in Kelowna for several days last week on route to California.

Mr. and Mrs. Doug Burden are spending a holiday in Nelson and Kamloops.

Mrs. R. P. "Tiny" Walrod and Mrs. A. L. Veborgall entertained friends at the tea hour last Thursday afternoon at the Aquatic Club.

Mrs. Ann McClymont has as her house guests Miss Dorothy McKenzie, of her sister, Miss Margaret McKenzie, of New Westminster.

Mr. and Mrs. J. N. Cushing returned last week from a motor holiday spent in the east.

Mr. and Mrs. Frank Sherrin, of Vancouver, were guests of the Royal Anne Hotel over the week-end.

Mrs. Ann McClymont and Miss Dorothy McKenzie returned on Tuesday, July 16, from a motor trip over the Big Bend Highway and Jasper, Banff, Lake Louise and Calgary.

Mr. and Mrs. Dick Diespecker (nee Sybil MacKenzie), of Vancouver, are spending a week's holiday at the Willow Lodge.

Mrs. A. H. DeMara entertained friends at the tea hour on Saturday afternoon, at the Willow Inn, honoring her house guest, Miss Lucy Brock, of Vancouver.

## WESTBANK MAN AND CALGARY GIRL UNITED

Robert Frank Basham and Joyce Dorothy Wallis Are Principals at Wedding in Glenrosa

The home of Mr. and Mrs. G. H. Gaddes, of Glenrosa, was the scene of a pretty wedding on Sunday, July 21, when their niece, Joyce Dorothy Wallis, daughter of Mr. and Mrs. Frank Wallis, of Calgary, became the bride of Robert Frank Basham, third son of Mr. and Mrs. J. Basham, Sr. of Westbank.

Some forty guests, including a number from Westbank and Kelowna, as well as relatives, were present. Mr. Basham, who is a technician, Mr. Macdonald will be the president of the Kelowna Players Club.

Mr. and Mrs. L. C. Storr and daughter, of Vancouver, are visiting at the home of Mr. and Mrs. G. B. Ford, Okanagan Mission.

Dr. and Mrs. Mackmull and small daughter, of Philadelphia, Pa., left last week for home after visiting Mrs. Mackmull's mother, Mrs. T. Bulman, of Elliston.

Mrs. E. G. Hempel and daughter Jean, of Providence, Rhode Island, are the guests of Mrs. Hempel's parents, Mr. and Mrs. A. Hardy, Pendergast Street, after an absence of twenty-three years. Mrs. Hempel will remain several weeks and then return home via the Pacific Coast cities.

Mr. and Mrs. E. Dodd had as their house guests during the past few weeks Mrs. Dodd's mother, Mrs. Chaney, of Prince Albert, and Mr. and Mrs. H. Chaney, also of Prince Albert, who were week-end guests. They left on Monday for their home.

Miss Essie Taylor left on Tuesday for Calgary, where she will spend a two weeks holiday, the guest of Mrs. Guy DeHart.

Mr. and Mrs. C. Huckle spent the past week holidaying at Sorrento.

Mr. and Mrs. R. J. Callum, of Fort William, who have been touring Canada this summer, were visitors in Kelowna on Monday.

Mr. and Mrs. T. J. Behan, of Vancouver, were the guests of Mr. and Mrs. J. R. Conway last Wednesday and Thursday. Mrs. Behan is Mrs. Conway's sister.

Mr. and Mrs. Rolf Turner, of Benvenuto, returned home last Tuesday from Calgary, where they had been holidaying. While there, they were guests of Mr. and Mrs. Norman Smith and Mrs. Frank Irvine.

Mr. and Mrs. O. L. Jones have returned from a visit to Vancouver and New Westminster. While at the Coast, Mr. Jones attended the Directors' meeting of the Union of B.C. Municipalities, in his capacity as President.

Mr. and Mrs. F. H. Hawe, who have been the guests of Mrs. J. Perry, Pendergast Street, returned to Vancouver on Monday, accompanied by Miss Flora Perry.

Mr. and Mrs. Frank Patch (nee Edith Wilson), of Cranbrook, are visiting in Kelowna.

Miss L. Bolton and Miss W. Byers, of Vancouver, are holidaying at the Willow Lodge.

Mr. and Mrs. Dick Stewart and family returned on Tuesday from a motor holiday spent in Banff and Calgary.

Mr. and Mrs. Wilson McGill have returned from a short holiday spent at the coast.

Mr. and Mrs. James Purvis have as their house guests this week Mr. and Mrs. C. McLeod, of Nelson.

Mrs. Anne McClymont left this week to spend a holiday at the coast. She was accompanied by Miss Dorothy McKenzie and Miss Margaret McKenzie, of New Westminster.

Mrs. J. S. Wallace and Miss W. McLennan, of Banff, were guests of the Royal Anne Hotel this week.

Mr. and Mrs. H. A. Blakeborough, of Kelowna, announce the engagement of their second daughter, Peggy, to Frederick William Greenaway, youngest son of Mr. and Mrs. E. W. Greenaway, of Vernon. The wedding will take place on Sunday, August 4, 1946, at 3 p.m. at St. Michael and All Angels' Church, Kelowna.

Mr. and Mrs. E. C. Weddell entertained at a dance at their home at Pendergast Street, on Wednesday evening, July 17, in honor of their son Teddy, who left on Sunday for Vancouver to join the Duke of Cornwall's Own Rifles.

Miss Jean Schooley has returned from a two weeks holiday, spent at her home at Stettler, Alberta.

Dr. and Mrs. A. S. Lamb, of Vancouver, were guests of the Royal Anne Hotel this week.

Mr. and Mrs. V. B. Fraser, of Vancouver, were guests of the Royal Anne Hotel this week.

Mr. and Mrs. J. Feniel and Miss M. Feniel, of Trail, were visitors in Kelowna this week, guests of the Royal Anne Hotel.

Mrs. Elsa Spencer has returned from Long Beach, California, where she spent the winter months. She has taken up residence in one of the Willow Inn cottages.

Mrs. Norman J. Lowes, of Nelson, was a visitor in Kelowna during the past week.

Mr. and Mrs. H. Davies, of Calgary, were visitors in Kelowna this week.

Mr. and Mrs. J. Roger Burns, of Vancouver, are guests of the Willow Inn this week.

Miss Mary Lang, of Cawston, is a visitor in Kelowna this week.

Mr. and Mrs. C. W. Holster and family, of Regina, were visitors in Kelowna over the week-end en route to Vancouver.

## "And She Says..."

About Your Driving Test

Everyone has heard about people getting full marks for their driving tests, but stories about the failures seem to circulate more slowly. One Pontiac couple are keeping quiet about a dilemma that they landed on the horns of. The wife, passed with 80 per cent, but the husband failed. After the test, they were getting into their car to drive home, but when hubby got into the driver's seat the examiner, a pompous, gaudy but firmly, "You can't do that! You've failed your test, your wife will have to do the driving till you manage to pass, you know!" The only snag was that witty hadn't the slightest idea how to drive a car!

About a Couple of Quick Ones

Lemonade can be made in a few seconds by just cutting up a lemon, and then adding sugar and pouring just water on top. Just that—no squeezing lemons or boiling syrup.

An excellent cake—and it needs no baking! Melt twenty marshmallows and a quarter of a pound of butter, add a packet of rice krispies, pour the mixture into a cake tin—and when it has set, you'll find it easy to cut, and very easy to eat!

About Relaxing

The ability to relax is like back-stitching in sewing—it strengthens the seam and helps the fabric to resist the pull. Here is one pleasantly relaxing that has a pleasantly relaxing effect—cup your eyes with the palms of your hands to shut out all the light and then try to concentrate on single objects in the room (all you can see through them, and then only in your mind's eye. Sounds silly? But worth trying.

About the "Business Girls' Donor Club"

The "Sun Tan for the War" campaign is now the "Business Girls' Donor Club" and the change means recruiting fields and war service aims have been broadened. It is a wide open club, asking for the good will and voluntary registration of all business girls, who feel they would like to do something to help win the war, and alleviate the suffering of others, by doing without a little luxury or other. "Sun-tanned-stockings" is one way of saving money for the Red Cross, and "roll-your-own" smokes for a month or so, or foregoing that "little hat in the window" are other ideas.

All of us want to do something to help, in these days, and girls who work in offices, stores, packing houses or nurse in hospitals, have a little time at the end of an eight hour day to devote to sewing or bandage making, etc., that the others have. It doesn't really matter what you decide to do without, nor the size of your pledges. What is important is the number of pledges there are, and the idea of having a united club recognized as a war-working unit.

"Sun Tan for the War" campaign has been carried out with the spirit of doing a good piece of work in a lighthearted comfortable manner, but the hosiery manufacturers, as well as the wholesalers, retailers and the manufacturers' agents, right across Canada, were losing a lot of sleep over it. They went so far as to say this might be the cause of much unemployment, and rumour got around that the silk worms were losing sleep too!

To set everyone's mind at rest the organizers are putting it up to each and every individual girl, who wishes to join, to make her sacrifice in the way she thinks she would like to—and the spirit of the Club, like the spirit of "Sun Tanning" is light hearted voluntary service through pledges of membership, no fees or dues are asked for. Now the members are more united than ever, and more determined to carry on as an active part of Canadian War Effort, and under the permit will be donated to the Canadian Red Cross, who are most anxious that the good work should be continued, for it has brought in excellent results to date.

J. E. Blackaller, of New Westminster, was a business visitor in Kelowna this week.

W. M. McClellan, Auditor for the Workmen's Compensation Board, is a guest at the Royal Anne Hotel and will be in Kelowna for the next ten days.

W. Hately, General Freight Agent for the Canadian National Railways at Vancouver, was a business visitor in Kelowna this week.

Harry McCall, of Revelstoke, was the guest of his parents, Mr. and Mrs. J. H. L. McCall, Richter street, during the past week.

Rudolph Guidi, of Oliver, was a visitor in Kelowna this week.

Teddy Weddell was guest of honor at a tea on Sunday afternoon when Mrs. J. D. Delgore entertained a number of his friends. A presentation of a pen and pencil set was made by his friends.

Mayor G. A. McKay and D. Chapman left on Wednesday by motor for the coast. They accompanied Dr. L. A. C. Panton.

E. A. Lemieux, of Montreal, was a visitor in Kelowna during the week.

Gordon Booth, of Calgary, has joined the staff of B.C. Tree Fruits Ltd. sales department during the rush months.

M. J. Cooper, of Montreal, has arrived in Kelowna to set up the Canadian Advertising Agency office here. He will occupy an office in the B.C. Fruit Board building, and will assist his company in operating the advertising account for the B.C. tree fruit industry.

C. W. Galbraith, of Vancouver, spent the past week holidaying in Kelowna.

Guests registered at the Royal Anne Hotel this week include: M. J. Cooper, Montreal; J. D. Lane and family, Kelowna; Mr. and Mrs. Chas. J. Bybee, Couleau Dam; Mr. and Mrs. Green, Bellevue; Mr. and Mrs. E. Coltari and father, Vancouver; Mr. and Mrs. Harry Crawford, Regina; Mr. and Mrs. H.

### Following Suit

"This is a good restaurant, isn't it?" asked the customer.  
"Yes, sir, best in town," responded the waiter. "If you order a fresh egg, you get the freshest egg in the city, sir. If you order hot soup, you get the hottest soup in the city, sir."  
"I believe you're right," interrupted the customer. "I ordered a small steak."

### NO EXCESS PROFITS

Hon. C. D. Howe, Minister of Munitions and Supply, speaking in the House of Commons at Ottawa on June 14, said: "I may say that all the supplies the Department of Munitions and Supply have purchased since the war began have been produced at a profit which, I am sure, does not exceed five per cent."

## GAS EXPLOSION BURNS WOMAN'S FACE AND ARMS

Mrs. William Green Taken to Hospital When Gasoline Used for Cleaning Clothes Explodes—Fire Chief Issues Warning

Mrs. William Green is in Kelowna hospital this week as a result of burns she received when high test gasoline, being used to clean clothes, exploded in her apartment in the Avalon Apts., Bernard Avenue, about two o'clock Sunday afternoon, July 21.

There was no fire in the tiny kitchenette where Mrs. Green was cleaning clothes with gasoline, but evidently through static electricity or a spark from a metallic object, the gasoline exploded. She was severely burned on the arms and about the face.

Commenting on the unfortunate incident, Fire Chief Jim Pettigrew told The Courier this week that gasoline vapor is extremely flammable and extreme caution should be practiced by anyone who handles it.

"Gasoline vapor is not dissipated in the atmosphere but sinks slowly to the ground," Mr. Pettigrew explained. "Sometimes it will settle to the floor of a room and flow along like the water of a stream, filling every hole and cranny it can find and remaining there, perhaps, for days."

### Worse Than Dynamite

"In changing into vapor, gasoline expands so enormously that one gallon will produce eight thousand cubic feet of gas, which means that a tank of gasoline feels square and heavy, but when it is vaporized it becomes a gas which is much more powerful than dynamite and much more easy to set on fire."

"Perhaps you have seen men engaged in blasting and have noticed how the small yellow sticks will tear solid rocks to pieces. Who would be foolish enough to leave dynamite lying around? It would take eighty-three pounds to do as much damage as the vapor from one gallon of gasoline, and people often handle gasoline as carelessly as though it could do no harm."

"It may seem a great convenience that we can so easily clean our gloves and clothes with gasoline, but it is an extremely dangerous practice and one which has caused great loss of life and property."

### Flash of Flame

"The fumes of the gasoline spread out in all directions and, if they come in contact with a lighted cigar, a burning gas-jet, a glowing coal in the fireplace, or even the merest spark, an explosion takes place with a resulting flash of flame which sets fire to whatever inflammable matter it touches. When we realize that a nail in one's shoe striking a metallic object may produce a spark, and that sparks may even be caused by the friction of rubbing gloves together while cleaning them, the countless opportunities for gasoline vapor to ignite and explode become apparent."

"Gasoline must never be allowed to remain in an open vessel or in any can or bottle which is not tightly corked. It should never be poured down the sink, because the fumes may pass through the sewer and come up in some other house. All cleaning by gasoline should be done by daylight and out of doors. It is still better to use some cleaning fluid which will not take fire. And never place gasoline in a glass bottle."

To sell for human consumption a potato weighing more than one pound is against the law in England.

## Grote Stirling Says Ten Per Cent Impost Not Accomplishing Goal

Conservation of Exchange Not Resulting as Big Volume of Imports Roll into Montreal Market, Yale Member Tells

Hon. Grote Stirling, M.P. for Yale, contended in the House of Commons on Wednesday, July 17, that the ten per cent impost against imports from the United States has not served the purpose of conserving Canadian exchange, as in the first two weeks of July, after the impost went into effect, a large volume of fruit entered the Montreal market from Chicago in competition with Canadian-grown fruits.

Mr. Stirling's address to the House on this subject follows:

Mr. STIRLING: There is a phase of this resolution that interests me very much, but not for reasons which have hitherto been dealt with in the discussion. The minister proposes this ten per cent tax for two reasons; one is to conserve exchange, the other quite obviously is to get revenue. Now the two are to be made compatible one with the other.

I do not understand whether the minister is speaking as a representative of people particularly interested in the production of fruits and vegetables. I want to return to the starting figure, and in addition there are three other important markets to which such commodities come. The hon. member for Regina City took him to task, pointing out that it was improper to use the figures of imports during the first week because the cars which came to Montreal during that week must have been ordered long before June 28 and consequently could not have had the ten per cent tax imposed. That statement merely reveals that the hon. member for Regina City is not fully acquainted with the customs of trade. It will take only a few moments to explain that point and I wish to do so because it leads to another.

Broadly speaking, Chicago is the receiving point for the whole of the middle west. Cars of fruits and vegetables from California, the United States, and other states roll to Chicago largely on consignment. The Montreal wholesaler does not buy at the shipping point. He buys from Chicago; he may buy when cars come to Montreal on consignment to Montreal; he may even buy on the tracks in Montreal. On June 25 this ten per cent tax became well known in the distributing centre of Chicago, and that any cars which came to Montreal after June 26 certainly came in under this tax. This shows that the ten per cent tax did not operate for the purpose of conserving exchange.

But, supposing there was any validity in the argument of the hon. member for Regina City, that validity is entirely destroyed when one considers the figures for the week after that when undoubtedly the ten per cent tax was in operation. During the week from July 2 to July 8, thirty-five carloads of cantaloupes rolled into the Montreal market which, as I say, is only one carload in Canada. In that week fourteen cars of cherries were received. The British Columbia crop is just about cleared up, but the Ontario crop of admirable cherries is running strong.

Loads of peaches came to Montreal. Within three weeks Ontario peaches will be at their flood; at any rate commercial production will be commenced, but we have twenty-six carloads of peaches bought by consumers in that one market.

Thirty carloads of plums came to Montreal during that week, in addition to the twenty-eight carloads which came during the previous week mentioned by the hon. member for Lake Centre, with shipments coming already from various points in Canada.

I am entirely in agreement with a measure having as its object the conservation of exchange. It appears to me most unreasonable that in one market, Montreal, during the week commencing June 26, some \$56,000 worth of plums should be sold, with another \$61,000 worth entering the same market the following week. In various parts of Canada we produce plums of better flavor than those imported; we are most anxious to use the Canadian market for the distribution of our plums, yet consumers in Montreal have an opportunity of buying and consuming between \$110,000 and \$117,000 worth of plums in a fortnight.

This is a matter which principally concerns three groups of people: the producers, the trade and the consumers. The producer is anxious to have at his disposal the Canadian market during the period of his production. It may be asked what view the trade takes on a tax, a method, an endeavor, to conserve Canadian dollars. If the minister were to go into the matter with the wholesalers of the shipping port of Montreal for instance, there he

would find men earning their living in that branch of industry who are just as patriotic and just as desirous of helping Canada in her war effort as we are.

I think he would have this story told to him: "The custom of the trade has been for these cars to roll into our market. That is the way in which the people who sell to us deal with us. It is necessary for us to do what we can with those cars which are sent on consignment. Among our members here is a wholesaler who stocks himself with a certain range of commodities; here is another and another. The wholesaler says, 'If I am to retain my business I must stock up the various commodities which are at our disposal. I must endeavor to sell them. That is not necessary. I am not asking for further tariff assistance. That is not necessary. I am not asking that some other method be adopted which will enable the minister to arrive at the goal at which his predecessor aimed.'"

Before the budget was brought down, representatives of the fruit and vegetable industry had an opportunity of meeting the minister and discussing with him their problem, namely, that they want the Canadian market at their disposal when their produce is ready. In the course of the amiable discussion which took place at that occasion this matter of the ten per cent duty was raised, and the minister was told by the industry that in their opinion it would be absolutely unsuccessful in achieving its purpose. Other methods were discussed. However, the budget came down and it contains this provision. Now we have presented evidence to the minister showing that after the impost

## 4 REGISTRATION DATES

the nation in its registration plans, he indicates.

### Others Co-operate

"There is no question that a strong effort will be made to have the registration as complete as possible. Postmasters and general store owners have kindly promised to warn callers and customers of the necessity of registering next month and plans are being made to send messages to prospectors and others, so that they may receive due warning and to assist them in getting in to register on one of the three days."

"Great assistance has been received from the school teachers, who have expressed their desire to assist the work on a voluntary basis."

Mr. Craig also states that R. Stirling, Kelowna, Assistant Registrar, is leaving for the northern part of the riding today, Thursday, to visit Armstrong, Enderby district and other places, including Mabel Lake and Trinity Valley.

Instructions call for the completion of lining up deputy registrars and registration places before August 1.

would find men earning their living in that branch of industry who are just as patriotic and just as desirous of helping Canada in her war effort as we are.

I think he would have this story told to him: "The custom of the trade has been for these cars to roll into our market. That is the way in which the people who sell to us deal with us. It is necessary for us to do what we can with those cars which are sent on consignment. Among our members here is a wholesaler who stocks himself with a certain range of commodities; here is another and another. The wholesaler says, 'If I am to retain my business I must stock up the various commodities which are at our disposal. I must endeavor to sell them. That is not necessary. I am not asking for further tariff assistance. That is not necessary. I am not asking that some other method be adopted which will enable the minister to arrive at the goal at which his predecessor aimed.'"

Before the budget was brought down, representatives of the fruit and vegetable industry had an opportunity of meeting the minister and discussing with him their problem, namely, that they want the Canadian market at their disposal when their produce is ready. In the course of the amiable discussion which took place at that occasion this matter of the ten per cent duty was raised, and the minister was told by the industry that in their opinion it would be absolutely unsuccessful in achieving its purpose. Other methods were discussed. However, the budget came down and it contains this provision. Now we have presented evidence to the minister showing that after the impost

tion of this tax we had in one market in Canada a glut of this useless stuff, which had the effect of making it more difficult for Canadian producers to sell their products. I ask the minister to give his best attention to the finding of some other method which will accomplish the end he has in view.

This unusual snap of a lightning flash was snapped during one of the recent severe storms which have passed over the district. The extraordinary bolt apparently staged a dress parade for the photographer, J. A. Jardine.

### KELOWNA MAN'S MOTHER PASSES AT VANCOUVER

The death occurred on Monday, July 15th, at Vancouver, of Mrs. S. J. Conway, aged 86, mother of Mr. Jack Conway, of Kelowna, and a pioneer of Summerland. Following a funeral service for members of the family at Vancouver, the remains were brought to Summerland for burial on Wednesday, July 17. Besides her son in Kelowna, the late Mrs. Conway leaves three daughters, Mrs. W. R. Shields and Mrs. T. J. Eban, in Vancouver; and Mrs. H. W. Stevens, Golden.

### APPLE MARKETING RULE

"The marketing of all apples, with the exception of Duchess and varieties maturing earlier than Duchess, is hereby prohibited until such time as regulations are

tion of this tax we had in one market in Canada a glut of this useless stuff, which had the effect of making it more difficult for Canadian producers to sell their products. I ask the minister to give his best attention to the finding of some other method which will accomplish the end he has in view.

similar organizations would join in the parade, it is expected.

### Other Attractions

Other attractions for the Thursday evening include a Bathing Beauty Contest for the honor of Lady of the Lake, a naval pageant which will feature the sinking of an enemy destroyer, midway games of all sorts and a monster dance at the Aquatic pavilion.

From a competitive standpoint, this Regatta is expected to attain at least the heights of last year, which was considered one of the best regattas in history. University of Washington Huskies and the Vancouver Rowing Club will send crews to compete against Kelowna oarsmen. It was stated in correspondence this week.

Alice Thomson is swimming the 400 yards freestyle in Canadian record time in practices and appears due to turn back many of the fast Vancouver, Victoria, Seattle, Chehalis and Wenatchee swimmers who will invade Kelowna.

With Alice is the championship swimming events will be Dot Anderson, Dot Smith and Betty Runcie. Among the male competitors who will represent Kelowna in the swim events are Jim Yink, Don Deans, Alan France and Lloyd Targart. In the junior class, Patsy Sargent is showing real promise, according to coach Roy Longley.

issued by the Board dealing with later varieties," states a circular issued by the B. C. Fruit Board and dated July 19.
